CHAPTER-1

INTRODUCTION AND PROJECT DESCRIPTION

1.1 INTRODUCTION

The **Expansion of Environmental Clearance for shopping/Commercial Building on 32.36 acres (DLF Downtown formally known as Mall of India) at Sector 25A, Gurugram, Haryana by M/S DLF LIMITED & OTHERS.**

This project has been granted environmental clearance from SEIAA Haryana vide letter no. **SEIAA/HR/2019/81** dated **06th May, 2019**. Further amendment letter has been obtained from SEIAA vide letter no. **SEIAA (125)/HR/2020/539** dated **06th November 2020**. Further Expansion for the project has been granted vide EC identification no. **EC23B038HR159125**, file no. **SEIAA/HR/2023/305** dated 09th April 2023, copy of the same is attached as **annexure 01**.

1.2 PROJECT DESCRIPTION

Table 1.1: Brief Description of project (As per Approved EC)

Sr. No.	Particulars	
1.	Online Proposal Number	SIA/HR/INFRA2/418061/2023
2.	Plot Area	1,30,956.07 m ²
3.	Proposed Ground Coverage	74307.1 m ²
4.	No. of Floors	5B+G+15
5.	Total Built Up area	875074 m ²
6.	Total Green Area with %	2814.57 m ² (25.05%)
7.	Rain Water Harvesting Pits	16 nos. Harvesting Pits
8.	Total Parking	10416 ECS
9.	Power Requirement	60900 KW
10.	Power Backup	67500 kVA
11.	Total Water Requirement	3881.36 KLD
12.	Fresh Water Requirement	1361.17 KLD
13.	Waste Water Generated	2364.6 KLD
14.	STP Capacity	3500 KLD
15.	Solid Waste Generated	14.23 TPD
16.	Basement	5

1.3 PRESENT STATUS

The project is in Partially Operation Phase. Block 2 and Block 3 is in operation phase. Construction has been completed in Block 4 only finishing work remain.

1.4 PURPOSE OF THE REPORT

This six-monthly report is being submitted as per the condition stipulated in the Environmental Clearance letter.

Further, the study will envisage the environmental impacts that have generated in the local environment due to the project.

The environmental assessment is being carried out to verify:-

- That the project does not have any adverse environmental impacts in the project area and its surrounding
- Compliance with the conditions stipulated in the Environmental Clearance Letter.
- The Project Management is implementing the environmental mitigation measures as suggested in the approved Form-1, Form-1A, Environmental Management Plan (EMP) and building plans.
- The project proponent is implementing the environmental safeguards in true spirit.
- Any non-conformity in the project with respect to the environmental implication of the project.

CHAPTER-2

COMPLIANCE OF STIPULATED CONDITIONS OF ENVIRONMENTAL CLEARANCE

Name of Project	Expansion of Environmental Clearance for Shopping/Commercial Building on 32.36 acres (DLF Downtown formally known as Mall of India) at Sector 25A, Gurugram, Haryana
EC Identification No.	EC23B038HR159125
File No.	SEIAA/HR/2023/305 dated 09 th April, 2023
Period of compliance Report	October 2023 to March 2024

PART A – SPECIFIC CONDITIONS

I.	Sewage shall be treated in the STP based on latest Technology with tertiary treatment i.e. Ultra Filtration to achieve standards ordered by NGT. The Treated effluent from STP shall be recycled /reused for flushing. DG cooling and Gardening. The Dimension of each component of STP should be properly designed as per Norms.	The project is in partially operation phase. Presently STP of 1000 KLD is functional due to less quantity of sewage generation. Total 2000 KLD STP is installed at the site based on MBR technology. Sewage is being treated in STP and the treated water is being used in flushing, Gardening, HVAC and DG cooling.
II.	The Project Proponent would devise a monitoring plan to the satisfaction of the State Pollution Control Board so as to continuously monitor the treated waste water being used for flushing in terms of faecal coli forms and other pathogenic bacteria.	Online monitoring system for STP is available at the project site for continuous monitoring the STP water.
III.	The PP shall ensure that total EMP Budget shall be spent on project during construction as well as during operational phase as per table given above. The EMP cost on Socio Economic activities shall be used before the commencement of the project & EMP recurring inside the project shall be implemented throughout the operation of the project. The PP shall establish Environment monitoring cell as per documents submitted.	EMP budget is being spent as per the details given in the EC letter.
IV.	The Project Proponents would commission a third-party study on the implementation of conditions related to quality and quantity of recycle and reuse	Same will be complied.

	of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.	
V.	Separate wet and dry bins must be provided in each unit and at ground level for facilitating segregation of waste. Solid Waste shall be segregated into wet garbage and inert materials. Wet Garbage shall be composted in Organic waste convertor. Adequate area shall be provided for solid waste management within the premises which will include area for segregation, composting. The Inert waste from the project will be sent to solid waste dumping site through authorized vender.	Separate wet and dry bins have been provided for segregation of waste. Bio-degradable waste is being decomposed in organic waste convertor of 2x800 kg capacity and non-biodegradable waste is being handed over to authorized vendor for safe disposal/recycle.
VI.	Traffic management plan as submitted shall be implemented in letter and spirit. Apart, a detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is marinated and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habilitation being carried out or purpose to be carried out by the project or other agencies in this 05kms radius of the site in different scenarios of space and time.	Separate entry and exits and internal roads of suitable width has been provided for smooth movement of vehicles. Parking has been fully internalized, and no public space is being used for parking. Hence, there is no traffic congestion near entry and exit points of the project site from the adjoining roads. The project is within the master plan of Gurugram.
VII.	The PP is required to plant 10 times trees at the project site and compensatory tree plantation will be done @1:10. No tree cutting has been proposed in the instant project. A minimum of 1 tree for every 80sqm of land should be planted and maintained. The Existing trees will be counted for this purpose. The landscape	Noted. Felling of trees was done to construct the basement after prior permission from forest department. For plantation species with heavy foliage, broad leaves, wide canopy cover and less water demanding is being preferred.

	planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping.	
VIII.	That PP shall maintain 25.05% of the Total Plot area as Green Area i.e. 32814.57sqm (without any deviation). The Green Area i.e. 32814.57 sqm shall not be reduced/ modified or put to use for any other purposes at any stage.	Green area is being developed as per the details given in EC letter at the project.
IX.	The Project Proponent shall obtain all necessary clearance/permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.	Necessary permission from all relevant agency has been obtained. Construction at the project site is being done as per details given in EC application and local building byelaws.
X.	In basements adequate ventilation/Exhaust fans shall be provided so that the polluted basement air shall be recharged from the cutouts located at the ground level.	In basement of Block 2 and Block 3 ventilation system has been provided.
XI.	The PP shall install the Eco Friendly Green Transformer based on ester oil to reduce the carbon footprint	Eco friendly Green Transformer is available at the project site.
XII.	Consent to establish/operate for the expansion project shall be obtained from the State Pollution Control Board as required under the Air (Prevention and Control of pollution) Act, 1981 and the Water (Prevention and control of pollution) Act, 1974.	The project is in Partially operation phase. Consent to Established from State pollution Control Board has been obtained vide letter no. HSPCB/Consent/:329962323GUNOCTE40433438 , dated 17/08/2023 valid upto 08/04/2033 , Copy of CTE is attached as Annexure 02 . Consent to Operate from State pollution Control Board has been obtained vide letter no. HSPCB/Consent/:329962322GUNOCTO28037676 , dated 11/10/2022 valid upto 30/09/2024 , Copy of CTO is attached as Annexure 03 .
XIII.	The Approval of the Competent Authority shall be obtained for structural safety of building code due to earthquakes, adequacy of firefighting equipments etc. as per National Building Code including protection measures from	Statutory clearances have been obtained. application for approval of fire safety has obtained Structure Safety Certificate is obtained from IIT Roorkee vide letter no. CVE/AC/DLF/DT/1 dated 17/03/2023

	lightening etc.	attached as Annexure 04.
XIV.	The PP shall not carry any construction above or below the Revenue Rasta, if any	Any construction will not be carried above or below the Revenue Rasta.
XV.	The PP shall not carry any construction below the HT Line passing through the project, if any	No HT Line is passing through the project Site.
XVI.	The PP shall obtain the Fire NOC from the Competent Authority before taking occupation of the building.	NOC Permission for Fire Safety has been obtained.
XVII.	The PP shall not give occupation or possession before the water supply and sewage connection permitted by the competent authority.	Water supply assurance letter from HSVP has been obtained and copy of the same is attached as Annexure 05
XVIII.	The PP shall not give occupation or possession before the electricity connection permitted by the competent Authority.	Power supply assurance letter from DHBVN has been obtained vide Memo no. CH-32/DRG/-26 dated 12/09/2018, and copy of the same is attached as Annexure 06
XIX.	The PP shall provide solar 1522 kWP	Solar of 242.10 kWP in Tower 3 and 277.65 kWP in Tower 2 (Total 519.75 kWP) is available at the project site for common area lighting and different uses. The remaining solar power will be provided in due course of time.
XX.	The PP shall obtain the permission regarding withdrawal of ground water from CGWA before the start of the project and also obtained the CTO from HSPCB after the approval from CGWA.	Not applicable as the ground water extraction is not involved in the project site.
XXI.	The PP shall carry out the quarterly awareness programs for the stakeholders of the commercial colony/project.	Quarterly awareness programs will be carried out for the stake holders of the project.
XXII.	16 (03 Constructed) Rain Water Harvesting pits shall be provided for rainwater usages as per the CGWB norms.	6 no. of Rainwater harvesting pits is in operation at site. Remaining 10 no. of RWH pits will be provided at site in fully operational phase. The rainwater collected from the rooftop and other paved areas within the project area has been conveyed into the rainwater harvesting system consisting of Desilting-cum-filter chamber, Oil & grease separator and Recharge pit with bore well for recharge into the groundwater. It has been ensured that no contamination enter into storm water drainage system.

		Rainwater harvesting and recharge system is as per the CGWB manual's.
XXIII.	The PP shall install Digital water level recorder for monitoring the water recharge and carry out quarterly maintenance and cleaning of RWH pits.	Digital Water Level Recorder has been provided to the 6 RWH pits.
XXIV.	The PP shall install 04 no of Anti-smog gun mounted on truck in the project for suppression of dust during construction and operational phase and shall use the treated water, if feasible, as per CAQM guidelines.	Regular Water sprinkling through Anti-smog guns are being done at the project site.
XXV.	The PP shall take all preventive measures including water sprinkles to control dust during construction and operational phase.	As the remaining construction work of Block 4 has been completed at site, all the dust mitigation measures were taken care during construction work. Mitigation measures are adopted to control the dust during construction and operation phase.
XXVI.	The PP shall provide the mechanical ladder for use in case of emergency.	Noted.
XVII.	Any change in stipulations of EC will lead to Environment Clearance void-ab-initio and PP will have to seek fresh Environment Clearance.	Noted.

PART B- Standard Conditions/Statutory compliance:

1.	The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority for ground coverage, FAR and should be in accordance with zoning plan approved by competent authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.	All the necessary clearance/permission from all relevant agencies have been obtained before the commencement of work. Zoning Plan is attached as Annexure 07 . All the construction work has been done as per local building byelaws.
2.	The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc as per National Building Code including protection measures from lightning etc.	Structure Safety Certificate has been obtained, copy of the same is attached as Annexure 04

3.	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.	NOC from forest department has been obtained with letter no. 866-G dated 06/07/2017, Copy of the same is attached as Annexure 08 .
4.	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable and shall abide with the conditions imposed in NOC, if any issued by Forest Department and NBWL.	Not Applicable.
5.	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.	The project is in Partially operation phase. Consent to Established from State pollution Control Board has been obtained vide letter no. HSPCB/Consent/:329962323GUNOCTE40433438 , dated 17/08/2023 valid upto 08/04/2033 , Copy of CTE is attached as Annexure 02 . Consent to Operate from State pollution Control Board has been obtained vide letter no. HSPCB/Consent/ : 329962322GUNOCTO28037676 , dated 11/10/2022 valid upto 30/09/2024 , Copy of CTO is attached as Annexure 03 .
6.	The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.	Ground water extraction will not be done at any stage of project.
7.	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.	Power supply assurance letter from DHBVN has been obtained vide Memo no. CH-32/DRG/-26 dated 12/09/2018, and copy of the same is attached as Annexure 06
8.	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, and Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.	Statutory clearances have been obtained. Structure Safety Certificate is attached as Annexure 04 . NOC from Chief control of explosive is obtained and copy of the same is attached as Annexure 09
9.	The provisions of the Solid Waste (Management) Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste (Management) Rules, 2016 shall be followed.	All the waste are being managed as per norms.

10.	The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly in addition of bylaws of the State Government.	Noted.
I.	Air quality monitoring and preservation	
i.	Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.	Construction work is completed at the project site, Dust mitigation measures like water sprinkling, covering of construction material, wind breaking wall, anti-smog guns, water trough, valid PUC certified vehicles were provided at project site.
ii.	A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.	Construction work is completed at the project site, Dust mitigation measures like water sprinkling, covering of construction material, wind breaking wall, anti-smog guns, water trough, valid PUC certified vehicles were allowed at project site.
iii.	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5) covering upwind and downwind directions during the construction period.	Complied, construction work is completed at the project site.
iv.	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.	“Ultra-Low sulphur diesel is being used for running DG sets at the site. 5x2250 KVA capacity of DG sets has installed at site. Adequate stack height has been provided and Enclosed type” DG sets which conforms the air and noise emission within permissible standard as per CPCB/HSPCB norms.
v.	Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the	Construction work is completed at the project site. Site barricades, anti-smog guns, water sprinkling, covering of construction material, wind breaking wall, water trough, valid PUC certified vehicles were allowed at project site. Site

	building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.	photographs has been attached as Annexure 11
vi.	Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.	Sand, murram, loose soil, cement, stored on site was covered to prevent dust pollution from site.
vii.	Wet jet shall be provided for grinding and stone cutting	Wet jet was used for grinding and stone cutting.
viii.	Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.	Water sprinkling is being done regularly to suppress dust generation from site.
ix.	All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.	As the construction work is completed at site, all construction debris has been disposed properly as per C&D disposal guidelines.
x.	The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.	“Ultra-Low sulphur diesel is being used for running DG sets at the site. 5x2250 KVA capacity of DG sets has installed at site. Adequate stack heights has been provided and Enclosed type” DG sets which conforms the air and noise emission within permissible standard as per CPCB norms.
xi.	The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution, Control Board (CPCB) norms.	“Ultra-Low sulphur diesel is being used for running DG sets at the site. 5x2250 KVA capacity of DG sets has installed at site. Adequate stack heights has been provided and Enclosed type” DG sets which conforms the air and noise emission within permissible standard as per CPCB norms.
xii.	For indoor air quality the ventilation	Same has been provided at the project

	provisions as per National Building Code of India.	site.
II.	Water quality monitoring and preservation	
i.	The natural: drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, or wetland and water bodies. Check dams, bio-swales, landscape, other- sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.	Natural drainage has been allowed for unrestricted flow of water. No construction has been allowed to obstruct the natural drainage of water system.
ii.	Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.	Noted.
iii.	Total fresh water shall not exceed the proposed requirement as provided in the project details. The per capita supply should adhere to NBC 2016 and CGWA notification dated 12.12.2018.	Fresh water requirement will not exceed as provided in the project details.
iv.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.	The water balance diagram has already been submitted along with application.
v.	A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.	Water supply assurance letter has been obtained from HSVP vide memo no. 9528 dated 24/07/2018 and copy of the same is attached as Annexure 11 .
vi.	At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers,	Same has been ensured at site.

	paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.	
vii.	Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.	Dual plumbing line has been provided at site, one for domestic water and other for recycled water for flushing. Entire wastewater (grey and black water) is being treated in the on-site STP up to the tertiary level and the entire treated effluent is being reused for Construction purpose, landscaping, cooling towers and flushing resulting into zero discharge.
viii.	Use of water saving devices, fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.	Use of water saving device for water conservation is incorporated in this building plan.
ix.	Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.	Dual plumbing line has been provided at site, one for domestic water and other for recycled water for flushing. Entire wastewater (grey and black water) is being treated in the on-site STP up to the tertiary level and the entire treated effluent is being reused for Construction purpose, landscaping, cooling towers and flushing resulting into zero discharge.
x.	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.	Complied, the construction work is completed at the project site.
xi.	The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain water harvesting recharge pts shall be provided for rain water harvesting after filtration as per CGWB guideline.	6 no. of Rainwater harvesting pits is in operation at site. Remaining 10 no. RWH pits will be provided at site in fully operational phase. The rainwater collected from the rooftop and other paved areas within the project area has been conveyed into the rainwater harvesting system consisting of Desilting-cum-filter chamber, Oil & grease separator and Recharge pit with bore well for recharge into the groundwater. It has been ensured that no contamination enter into storm water drainage system. Rainwater harvesting and recharge system is as per the CGWB manual.
xii.	A rain water harvesting plan needs to be	6 no. of Rainwater harvesting pits is in

	designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.	operation at site. Remaining 10 no. RWH pits will be provided at site in fully operational phase.
xiii.	All recharge should be limited to shallow aquifer.	Noted.
xiv.	No ground water shall be used during construction phase of the project.	Ground water extraction is not involved in the project.
xv.	Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.	Noted.
xvi.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.	The water balance diagram has already been submitted along with application. Records of fresh water usage, water recycling and rainwater harvesting will be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports during fully operation phase of the project.
xvii.	Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC makeup water and gardening. As proposed no treated water shall be disposed in to municipal drain.	The project is in partially operation phase. Total 2000 KLD of STP is available at the project site in which 1000 KLD of STP based on MBR technology is in operation at the project site. Sewage is being treated in STP and is being used in flushing, Gardening and DG cooling.
xviii.	No sewage or untreated effluent water would be discharged through storm water drains.	No sewage or untreated effluent water will be discharged through storm water drains.
xix.	Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant. (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the	The project is in partially operation phase. Presently STP of 1000 KLD is functional due to less quantity of sewage generated. STP of 2000 KLD is installed at the site based on MBR technology. Sewage is being treated in STP and the treated water

	Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.	is being used in flushing, Gardening, HVAC and DG cooling.
xx.	Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.	STP treated water is being monitored as per norms, Latest STP water testing report is attached as annexure 10
xxi.	Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.	Sludge from onsite sewage is being collected and used as manure for landscape and horticulture development, surplus sludge will be disposed as per the Ministry of Urban Development, CPHEEO manual on sewerage and sewage treatment.
III.	Noise monitoring and prevention	
i.	Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.	Noise level is within standard limit of prescribed guidelines for commercial region. Monitoring report is attached as an Annexure 09 .
ii.	Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.	Same has been complied and monitoring report is attached as annexure 09 .
iii.	Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.	Back-up DG sets has been kept in acoustically treated room at basement to conform to prescribe noise level standards. DG sets has been provided with adequate stack height as per CPCB

		guidelines.
IV.	Energy Conservation measures	
i.	Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency as per ECBC act 2017 read with ECBC rule, 2018 shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC also is in no case should be less than 25% as prescribed.	Noted.
ii.	Outdoor and common area lighting shall be LED.	LEDs are being used for common area lightening
iii.	Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specification.	Solar of 242.10 kWP in Tower 3 and 277.65 kWP in Tower 2 (Total 519.75 kWP) is available at the project site for common area lighting and different uses to minimize the energy consumption. The remaining solar power will be provided in due course of time.
iv.	Energy conservation measures like installation of CFLs/ LED for the lighting the area outside The building should be integral part of the project design and should be part of the project commissioning.	Energy efficient luminaries like LEDs are being used within project site. Used/damaged LEDs are being stored at designated places within site and handed over to authorized recycler for proper disposal as per norms.
v.	Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-law's requirement, whichever is higher.	Solar of 242.10 kWP in Tower 3 and 277.65 kWP in Tower 2 (Total 519.75 kWP) is available at the project site for common area lighting and different uses. Remaining Solar will be provided in fully operation phase. The remaining solar power will be provided in due course of time.
vi.	Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating provided to meet 20% of the hot water demand of the commercial building or as per the requirement of the local building whichever is higher.	Solar of 242.10 kWP in Tower 3 and 277.65 kWP in Tower 2 (Total 519.75 kWP) is available at the project site. Solar water heater is available at the project site. The remaining solar power will be provided in due course of time.

	Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.	
vii.	The PP will submit report indicating compliance of each parameters of ECBC requirement and submit quantification saving report for each component.	Same will be complied in fully operation phase.
V.	Waste Management	
i.	A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W, generated from project shall be obtained.	Bio-degradable waste is being decomposed in organic waste convertor of 2x800kg capacity and non-biodegradable waste is being handed over to authorized vendor for safe disposal/recycle.
ii.	Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	Disposal of muck during construction phase had not created any adverse effect on the neighboring communities and is being disposed by taking the necessary precaution for general safety and health aspect.
iii.	Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.	Separate wet and dry bins have been provided for segregation of waste. Bio-degradable waste is being decomposed in organic waste convertor and non-biodegradable waste is being handed over to authorized vendor for safe disposal/recycle.
iv.	Organic Waste Converter within the premises with a minimum capacity of 0.5 kg /person/day must be installed. Leaves to be put in earmarked pits for converting them into compost to be used as manure.	2 Organic waste converter each of 800 kg are available at the project site for decomposing the organic waste at the project site.
v.	All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.	All non-biodegradable waste is being handed over to authorized recycler for disposal as per norms.
vi.	Any hazardous waste generated during construction phase, shall be disposed of as per applicable rules and norms with necessary approvals of the State	As this is a commercial project, the only hazardous waste generated is spent oil from DG which is being disposed of as per applicable rules and norms with necessary

	Pollution Control Board.	approval by SPCB.
vii.	Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.	Complied, Construction work is completed at the project site.
viii.	Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.	Complied, Construction work is completed at the project site.
ix.	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.	Complied, Construction work is completed at the project site.
x.	Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.	E waste ai being collected separately and provided to authorize recycler for safe disposal.
VI.	Green Cover	
i.	No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the forest department. Plantation to be ensured species (cut) to species (planted).	Felling of trees was done to construct the basement after prior permission from forest department. For plantation species with heavy foliage, broad leaves, wide canopy cover and less water demanding is being preferred.
ii.	A minimum of 1 tree (5' tall) for every 80 sqm. of land should be planted and maintained. The existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy	A minimum of 1 tree (5' tall) for every 80 sqm. of land will be planted and maintained. Plant species selected for the project are mostly indigenous type with less water demand.

	foliage, broad leaves and wide canopy cover are desirable. Water intensive and or invasive species should not be used for landscaping.	
iii.	Where the trees need to be cut with prior permission from the concerned local authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantation to be ensured species (cut) to species (planted). Area of green belt development shall be provided as per the details provided in the project document.	Proper green belt has been designed with peripheral shelter belt. Desired Noise level within the project site will be maintained. Landscape and covered vegetation proposed will be of indigenous variety.
iv.	Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the Proposed vegetation on site.	Excavated soil was stored at separate place and used for site leveling, back filling/filling raft and road construction. Top layer of soil was stored and used for landscaping/ horticulture development work.
VII.	Transport	
i.	A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria. a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic. b. Traffic calming measures. c. Proper design of entry and exit points. d. Parking norms as per local regulation.	The parking has been provided as per local regulations and bylaws; parking plan has already submitted with EC application. Entry and Exit points are properly designed and there is proper segregation of vehicular and pedestrian traffic at the site.
ii.	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during nonpeak hours.	Complied, Construction work is completed at the project site.
iii.	A detailed traffic management and	A detailed traffic management has already

	traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habilitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the state urban development department and the P.W.D./competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.	been submitted with EC Application.
VIII.	Human health issues	
i.	All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.	Complied, Construction work is completed at the project site.
ii.	For indoor air quality the ventilation provisions as per National Building Code of India.	The ventilation provisions for indoor air quality will be as per National Building Code of India.
iii.	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.	Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan has already been submitted along with application.
iv.	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	Complied, Construction work is completed at the project site.
v.	Occupational health surveillance of the	Complied, Construction work is completed

	workers shall be done on a regular basis.	at the project site.
vi.	A First Aid Room shall be provided in the project both during construction and operations of the project.	First Aid Room is available at the site.
IX.	Corporate Environment Responsibility	
i.	The project proponent shall comply with the provisions of CER, as applicable.	Noted.
ii.	The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental Policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/ violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.	The same will be complied.
iii.	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.	Noted.
iv.	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted to any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.	Same has already been submitted at the time of EC application.
X	Miscellaneous	

i.	The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.	Advertisement in two local newspapers has been done, copy of the same is attached as Annexure 12 .
ii.	The copies of the environment clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.	Same has already been complied.
iii.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis	Same will be complied.
iv.	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.	Submission of six-monthly compliance reports is being done regularly.
v.	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.	Environmental statement for each financial year in Form-V will be submitted time to time in HSPCB.
vi.	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.	Same will be complied.
vii.	The project authorities must strictly	The project authorities will strictly adhere

	adhere to the stipulations made by the State Pollution Control Board and the State Government.	to the stipulations made by the State Pollution Control Board and the State Government.
viii.	The project proponent shall abide by all the commitments and recommendations made in the Form I-A, conceptual plan also that during their presentation to the Expert Appraisal Committee.	Environmental safeguards contained in the application form 1, Form 1A and in environmental clearance order are being implemented in true spirit.
ix.	No further expansion or modifications in the plan shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Haryana. The project proponent shall seek fresh environment clearance under EIA notification 2006, if at any stage there is a change of area of this project.	Noted. No further expansion or modifications in the plan will be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Haryana.
x.	Any deviation/change in stipulations of EC/ Development plan, will leads to Environment Clearance void-ab-initio i.e. EC will become invalid for all intent and purposes.	Fresh environmental clearance will be sought in case of any change in planning of approved plan.
xi.	The PP should give unambiguous affidavit giving land promoters in accordance with your ownership and possession of land legal the case referred for environment clearance to SEIAA.	Noted.
xii.	Concealing factual data or submission of false/fabricated data will result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986	Noted.
xiii.	The Ministry/SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.	Noted.
xiv.	The Ministry/SEIAA reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.	Noted.
xv.	The Regional Office of this Ministry shall monitor compliance of the stipulated	Submission of six-monthly compliance reports is being done regularly on time to

	conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information/monitoring reports.	time.
xvi.	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Trans boundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.	The same is being complied.
xvii.	The Project proponent shall not violate any judicial orders/pronouncements issued by any Court/Tribunal	Noted
xviii.	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the Project Proponent if it was found that construction of the project has been started before obtaining prior Environmental Clearance.	Noted.
xix.	Any appeal against this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Noted. Not applicable.
xx.	The project proponent is responsible for compliance of all conditions in Environmental Clearance letter and project proponent can not absolve himself /herself of the responsibility by shifting it to any contractor engaged by project proponent.	Noted
xxi.	The validity of this environment clearance letter is valid up to 10 years from the date of issuance of EC letter in	Noted

	accordance with the MoEF & CC, GoI Notification No. S.O.1807 (E), dated the 12th April, 2022. The environment clearance conditions applicable till life space project will continue to apply. In case of violation the action will be taken as per the laid down law of land. Compliance report shall be sent to this office till life of the project.	
xxii.	If project is not completed within the validity period then the project proponent shall submit the application for extension of validity within one month before the lapse of validity period of Environment Clearance.	Noted
xxiii.	The Project Proponent should intimate to the Authority as well as to the quarter concerned in case of any change in the present communication address.	Noted

Chapter 3**DETAILS OF ENVIRONMENTAL MONITORING****3.1 AMBIENT AIR QUALITY MONITORING****3.1.1 Ambient Air Quality Monitoring Stations**

Ambient air quality monitoring has been carried out at three locations, being near entry gate, near site office and backside of the building to assess the ambient air quality of Project Site on March, 2024. This will enable to have an analytical understanding about air quality and the changes in the air environment in the study area with respect to the condition prevailing. The location of the ambient air quality monitoring station is given in **Table 3.1**.

Table 3.1 Details of Ambient Air Quality Monitoring Stations

S. No	Location Code	Location Name/ Description	Environmental Setting
1.	AAQ-1	Near Entry Gate	Commercial
2.	AAQ-2	Near Site Office	Commercial
3	AAQ-3	Back Side of the Building	Commercial

3.1.2 Ambient Air Quality Monitoring Methodology

Monitoring was conducted in respect of the following parameters:

- Particulate Matter 2.5 (PM_{2.5})
- Particulate Matter 10 (PM₁₀)
- Sulphur Dioxide (SO₂)
- Oxide of Nitrogen (NO₂)
- Carbon Monoxide (CO)
- Ozone (as O₃)
- Lead (Pb)
- Ammonia (NH₃)
- Benzene (C₆H₆)
- Benzo (a) Pyrene
- Arsenic (As)
- Nickel (Ni)

The duration of sampling of PM_{2.5}, PM₁₀, SO₂, NO₂, PB, NH₃, C₆H₆, AS and Benzo(a)Pyrene was 24 hourly continuous sampling per day. The Sampling of CO was done 1 hours while Ozone was sampled for 8 hours duration as per National Ambient Air Quality Standards.

The air samples were analyzed as per standard methods specified by Central Pollution Control Board (CPCB) and IS: 5182. The techniques used for ambient air quality monitoring and minimum detectable levels are given in **Table 2.2**.

Fine Particulate Sampler APM 550 instruments have been used for monitoring Particulate Matter 2.5 (PM_{2.5} i.e. <2.5 microns), and Respirable Dust Sampler APM 450 was used for sampling Respirable fraction (<10 microns), gaseous pollutants like SO₂, and NO₂. Bladder

and Aspirator bags were used for collection Carbon monoxide samples. Non-Dispersive Infrared Absorption Method (NDIR) techniques have been used for the estimation of CO. Gas Chromatography techniques have been used for the estimation of Benzo (a)Pyrene and Benzene.

**Table 3.2: Techniques used for Ambient Air Quality
Monitoring**

S. No.	Parameter	Technique	Technical Protocol
1	Particulate Matter 2.5	Gravimetric Method	IRDH/SOP/AAQM/01
2	Particulate Matter 10	Gravimetric Method	IS 5182 P- 23 (2006)
3	Sulphur dioxide (SO ₂)	Modified West and Gaeke	IS 5182 P-02 (2001)
4	Oxides of Nitrogen	Jacob &Hochheiser Method	IS 5182 P-06 (2006)
5	Carbon Monoxide	Non-Dispersive Infrared Absorption Method (NDIR)	IRDH/SOP/AAQM/08
6	Ozone (as O ₃)	Chemical Method (Colorimetric)	IS:5182(Part-9)
7	Lead (Pb)	Atomic Absorption Direct Aspiration Method	IS:5182(Part-22)
8	Ammonia (NH ₃)	Indophenol Method (Colorimetric)	SOP:IRDH/SOP/AAQM/09
9	Benzene (C ₆ H ₆)	Gas Chromatography	IS:5182(Part-11)
10	Benzo alpha Pyrene	Gas Chromatography	IS:5182(Part-12)
11	Arsenic (As)	Atomic Absorption throughHydride Generator	SOP:IRDH/SOP/AAQM/06
12	Nickel (Ni)	Atomic Absorption direct Aspiration method	SOP:IRDH/SOP/AAQM/07

3.1.3 Ambient Air Quality Monitoring Results

The detailed on-site monitoring results of PM_{2.5}, PM₁₀, SO₂, NO₂, CO, O₃, PB, NH₃, C₆H₆, AS, Ni, andBenzo (a) Pyrene are presented in **Table 3.3**.

Table 3.3: Ambient Air Quality Monitoring Results

S. No	Parameter	Method	Results AAQ-1	Results AAQ-2	Results AAQ-3	Unit	Requirement (CPCB limits)*
-------	-----------	--------	---------------	---------------	---------------	------	----------------------------

1.	Particulate Matter as PM _{2.5}	IRDH/SOP/AAQM/01	88.0	82.0	76.0	µg/m ³	60
2.	Particulate Matter as PM ₁₀	IS 5182 P- 23 (2006)	182.0	176.0	172.0	µg/m ³	100
3.	Sulphur dioxide as SO ₂	IS 5182 P-02 (2001)	10.45	8.02	7.10	µg/m ³	80
4.	Nitrogen dioxide as NO ₂	IS 5182 P-06 (2006)	26.2	24.5	23.0	µg/m ³	80
5.	Carbon monoxide as CO	IRDH/SOP/AAQM/08	1.08	0.97	0.94	mg/m	4.0
6.	Ozone (as O ₃)	IS:5182(Part-9)	19.5	18.6	16.2	µg/m ³	100 (8
7.	Lead (Pb)	IS:5182(Part-22)	<0.1	<0.1	<0.1	µg/m ³	1
8.	Ammonia (NH ₃)	SOP: IRDH/SOP/	23.2	20.6	19.0	µg/m ³	400
9.	Benzene (C ₆ H ₆)	IS:5182(Part-11)	<1.0	<1.0	<1.0	µg/m ³	5
10.	Benzo alpha Pyrene	IS:5182(Part-12)	<1.0	<1.0	<1.0	ng/m ³	1
11.	Arsenic (As)	SOP: IRDH/SOP/	<1.0	<1.0	<1.0	ng/m ³	6
12.	Nickel (Ni)	SOP: IRDH/SOP/	<1.0	<1.0	<1.0	ng/m ³	20

3.1.4 Discussion on Ambient Air Quality in the Study Area

The levels of PM₁₀ and PM_{2.5} near entry gate, near site office and backside of the building of project site is above than permissible limit of 100 µg/m³ 60 µg/m³ respectively (for residential, rural and other areas as stipulated in the National Ambient Air Quality Standards). Other parameters were observed within the corresponding stipulated limits at monitoring location.

3.2 AMBIENT NOISE MONITORING

3.2.1 Ambient Noise Monitoring Locations

The main objective of noise monitoring in the study area is to assess the present ambient noise levels at the project site on March, 2024. A preliminary reconnaissance survey has been undertaken to identify the major noise generating sources in the area. Ambient noise monitoring was conducted at 3 locations at near main gate, near site office and Back Side of the Building of the project site as given in **Table 3.4**.

Table 3.4: Details of Ambient Noise Monitoring Stations

S. No.	Location Code	Location Name/ Description	Present Landuse
1.4.1	ANQ1	Near Entry Gate	Commercial
2.4.1	ANQ2	Near Site Office	Commercial
3.4.1	ANQ3	Back Side of the Building	Commercial

3.2.2 Methodology of Noise Monitoring

Noise levels were measured using integrated sound level meter manufactured by Envirotech Instrument Pvt. Ltd. The integrating sound level meter is an integrating/ logging type with frequency range of 'A' type as per IS 15675 (Part 1) 2005. This instrument is capable of measuring the Sound Pressure Level (SPL), Leq and SEL on digital display.

Noise level monitoring was carried out continuously for 24-hours with one hour interval starting at 10:40 hrs to 09:40 hrs next day. The noise levels were monitored on working days only. During each hour Leq were directly computed by the instrument based on the sound pressure levels. Lday (Ld), Lnight (Ln) and Ldn values were computed using corresponding hourly Leq.

3.2.3 Ambient Noise Monitoring Results

The locations wise ambient noise monitoring result are summarized in **Table 3.5**. The location-wise variation of noise levels are graphically presented in **Figure 3.1**.

Table 3.5: Ambient Noise Monitoring Results

Sr. No.	Test Locations	Day Time – dB(A)		Night Time – dB(A)	
		Results	Limits as per CPCB guideline	Results	Limits as per CPCB guideline
1	Near Main Gate	53.6	65	43.7	55
2	Near Site office	51.9		42.2	
3	Back Side of the Building	50.2		40.7	

Figure 3.1 Location-wise Variation of Ambient Noise Levels

3.2.4. Discussion on Ambient Noise Levels in the Study Area

Day Time Noise Levels (Lday):

The day time noise level was found within the limit for Commercial area i.e. 65 db(A). Night Time Noise Levels (Lnight):

The night time noise level was found within the limit for Commercial area i.e. 55 db(A)

3.3 GROUNDWATER QUALITY MONITORING

3.3.1 Groundwater Quality Monitoring Locations

Keeping in view the importance of groundwater as an important source of drinking water to the local population, sample of ground water was collected from the project site for the assessment of impacts of the project on the groundwater quality.

Water sample was collected from 1 location (Sai Baba mandir). The sample was analyzed for various parameters to compare with the standards for drinking water as per IS: 10500 for ground water sources. The details of water sampling locations are given in Table 3.6.

Table 3.6 Details of Water Quality Monitoring Station

S. No.	Locn. Code	Location Name/ Description
1.	GW 1	Water collected from Sai Baba mandir(28°29'39.54"N, 77°06'15.20"E)

3.3.2 Methodology of Groundwater Quality Monitoring

Sampling of ground water was carried out on March, 2024. Samples were collected as grab sample and sampling forms are filled in as per the sampling plan. The preservative sample were properly added to preserve as per standard operating procedures (SOP) and stored immediately in ice boxes, which were ensured for appropriate temperatures. Sample for chemical analysis was collected in polyethylene carboys. Sample collected for metal content were acidified to <2 pH with 1 ml HNO₃. A sample for bacteriological analysis was collected in sterilized glass bottles.

Soon after the completion of sampling, chain of custody sheets for the samples are filled in and then they were transported by road to IR&DH Noida for further analysis. Proper care was taken during packing and transportation of samples. All the samples reached the central laboratory within the holding times for different parameters. After ensuring the same the samples were forwarded immediately for analysis.

The samples were analyzed as per the standard procedures specified in 'Standard Methods for the Examination of Water and Wastewater' published by American Public Health Association (APHA) and CPCB. The analytical techniques and the test methods adopted for testing of ground water are given in Table 3.7.

3.3.3 Groundwater Quality Monitoring Results

1.

The detailed groundwater quality monitoring results are presented in **Table 3.7**

S No.	Parameter	Test Protocol	Results	Unit	Requirements as per IS 10500- 2012	
					Acceptable limits(Max)	Permissible limits(Max)
1.	pH	IS 3025 P-11 1983	7.42	--	6.5-8.5	No Relaxation
2.	Turbidity	IS 3025 P-10 (1984)	<0.5	NTU	1	5

3.3.4 Discussion on Groundwater Quality in the Study Area

From the above tables, it is observed that all physical and chemical parameters are found within the permissible limits. However, parameters like Total Hardness, Total Dissolve Solid, Total Alkalinity, Mg, and Ca exceeds the acceptable limit as per IS10500 standards

3.4 SOIL MONITORING

3.4.1 Soil Monitoring Locations

The objective of the soil monitoring is to identify the impacts of ongoing project activities on soil quality and also predict impacts, which have arisen due to execution of various constructions allied activities. Accordingly, a study of assessment of the soil quality has been carried out.

To assess impacts of ongoing project activities on the soil in the area, the physico-chemical characteristics of soils were examined by obtaining soil samples from selected points and analysis of the same. One sample of soil was collected from the project site for studying soil characteristics, the location of which is listed in **Table 3.8**.

Table 3.8 Details of Soil Quality Monitoring Location

S. No.	Location Code	Location Name/ Description
1.	S1	Project Site

3.4.2 Methodology of Soil Monitoring

The sampling has been done in line with IS: 2720 & Methods of Soil Analysis, Part-1, 2nd edition, 1986 of American Society for Agronomy and Soil Science Society of America. The homogenized samples were analyzed for physical and chemical characteristics (physical, chemical and heavy metal concentrations). The soil samples were collected in the month of March, 2024.

The samples have been analyzed as per the established scientific methods for physico-chemical parameters. The heavy metals have been analyzed by using Atomic Absorption Spectro-photometer and Inductive Coupled Plasma Analyzer.

3.4.3 Soil Monitoring Results

The physico-chemical characteristics of the soil, as obtained from the analysis of the soil sample, are presented in **Table 3.9**.

Table 3.9: Physico-Chemical Characteristics of Soil in the Study Area

S. No.	Parameter	Test Method	Results	Unit
1.	pH	IS 2720 P-26 (1987)	8.13	--
2.	Conductivity	IS 14767 (RA 2016)	456.0	μS/cm
3.	Moisture	IS 2720 P-25 (1972)	9.35	% by mass
4.	Water Holding Capacity	IRDH/SOP-SL/07	21.4	%
5.	Specific Gravity	IS 2720 P-3 (1980)	1.92	-
6.	Bulk density	IRDH/SOP-SL/06	1.38	gm/cc

	Slit		14.0	
20.	Sodium Absorption Ratio(SAR)	IRDH/SOP-SL/13	1.10	By calculation

3.1.1 Discussion on Soil Characteristics in the Study Area

The soil in study area is characterized by moderate organic content. The soil quality in the project area has not been affected by the project activities.

ANNEXURE I

Government of India
Ministry of Environment, Forest and Climate Change
(Issued by the State Environment Impact Assessment
Authority(SEIAA), HARYANA)

To,

The Authorized Signatory

M/S DLF LIMITED & OTHERS

DLF Gateway Tower, R Block, DLF City Phase-II, Gurugram-122002,
Haryana, India -122002

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity
under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/HR/INFRA2/418061/2023 dated 13 Feb 2023. The particulars of the environmental clearance granted to the project are as below.

1. EC Identification No.	EC23B038HR159125
2. File No.	SEIAA/HR/2023/305
3. Project Type	Expansion
4. Category	B
5. Project/Activity including Schedule No.	8(a) Building and Construction projects
6. Name of Project	Expansion of Environmental Clearance for Shopping/Commercial Building on 32.36 acres (DLF Downtown formally known as Mall of India) at Sector 25A, Gurugram, Haryana
7. Name of Company/Organization	M/S DLF LIMITED & OTHERS
8. Location of Project	HARYANA
9. TOR Date	N/A

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 09/04/2023

(e-signed)
Pardeep Kumar, IAS
Member Secretary
SEIAA - (HARYANA)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

This is a computer generated cover page.

State Environment Impact Assessment Authority, Haryana,
Bays No.55-58, Prayatan Bhawan, Sector-2 Panchkula.

E-mail Id: seiaa-21.env@hry.gov.in

Subject: Expansion of Environmental Clearance for Shopping/Commercial Building on 32.36 acres (DLF Downtown formally known as Mall of India) at Sector 25A, Gurugram, Haryana by M/s DLF Limited.

1.	Project Proponent	M/s DLF Limited.
2.	Project Consultant	M/s Ind Tech House Consult
3.	NABET, ACCREDITATION	(No. NABET/EIA/2023/SA 0174 Valid upto : 29-04-2023)
4.	Applied Category of the Project	8 (b)
5.	Location of the Project	Sector 25A, Gurugram, Haryana
6.	Longitude Latitude	28°30'07.97"N 77°05'43.02"E
7.	Total Cost of the Project	₹ 3498 Crore
8.	Validity of the Environment Clearance letter	10 Years from the date of issuance in accordance with the MoEF & CC, GoI Notification No. S.O.1807 (E), dated the 12th April, 2022.

1. This has reference to your **Proposal No. SIA/HR/INFRA2/418061/2023 dated 13.02.2023** and subsequent letter dated 01.03.2023 and 22.03.2023 for obtaining Environmental Clearance under category 8(b) of EIA Notification dated 14.09.2006 along with submission of **due Scrutiny fee (as applicable) of ₹ 2,00,000/- vide DD No. 521520 Dated 23.12.2022** (in compliance of Haryana Government, Environment & Climate Change, Department Notification No. DE&CCH/3060 dated 14.10.2021). The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application viz., Form-1, Form1-A, Conceptual Plan, EIA/EMP on the basis of approved TOR and additional clarifications furnished in response to the observations of the State Expert Appraisal Committee (SEAC) constituted by MoEF& CC, GoI vide their Notification dated 21.02.2022, in its meeting held on 27.02.2023 awarded **“Gold” rating / grading** to the Project.

2. It is inter-alia, noted that the project involves the EC for Shopping/Commercial Building on 32.36 acres (DLF Downtown formally known as Mall of India) at Sector 25A, Gurugram, Haryana.
3. The details of project are as under:

Sr. No.	Particulars	As per Previous EC Received on 6 th May 2019	As per Amendment dated 06.11.2020	After Expansion	Changes	Unit	Remarks
1	Plot Area	1,30,956.07	-	1,30,956.07	No change	sqm	-
2	Built Up area	10,57,114.090	-	875074	-182040.09	sqm	As the 3 basements under building 2 and 3 were reduces hence the built-up area decreases. In place of LG and UG only ground floor proposed
3	No. of Floors	5B+LG+UG+8	5B+LG+UG+9	5B+GF+15	6.00	No.	Addition of 6 floors in building 4 and LG and UG floors were scrapped
4	Ground Coverage	62262.7	78567.69	74307.1	-4260.59	sqm	As we are going for vertical expansion after receipt of permission for increased height in AAI NOC. The ground coverage is being reduced
5	Green Area	32,754.438	-	32814.57(25.05%)	60.13	sqm	Green area will be slightly higher than the previous EC.
6	Total Water Requirement	2354.4	-	3881.36	1526.96	KLD	Increased due to increase in Population
7	Fresh Water Requirement	1204.7	-	1361.17	156.47	KLD	Increased due to increase in Population
8	Waste Water Generation	1171.7	-	2364.6	1192.90	KLD	Increased due to increase in Population
9	STP Capacity	1600	-	3500	1900.00	KLD	Increased due to increase in Population
10	Power Requirement	28310	-	60900	32,590.00	KW	Increased due to increase in No. of Floors
11	DG Sets	40000	-	67500	27500.00	KVA	Increased due to increase in No. of

							Floors
12	Parking Required	8243	-	9167	924.00	ECS	Increased due to increase in No. of Floors
13	Parking Proposed	10522	-	10416	-106.00	ECS	Decreased due to reduction in basement
14	Total Solid waste	9322	-	14230	4908.00	kg/day	Increased due to increase in Population
15	Bio Degradable Waste	3729	-	5690	1961.00	kg/day	Increased due to increase in Population
16	No. of RWH Pits	28	-	16 (03 Constructed)	-12.00	No.	Total peak Runoff for 15min 1455.29 m ³ . We are proposing 1260 m ³ volume collection tank for reuse purpose. Balance run off volume 95.29 m ³ rain water will go to recharge pits. We have proposed 16 Nos of RWH pits having volume of each RWH is 44 m ³ . Total capacity of harvesting pit = 44 x 16 = 704 KL (608 KL Additional which is more enough to cater to harvest / store rain water.
17	Cost of Project	4551	-	3498	-1053.00	Cr	Project cost was reduces from 4551 CR. to 3498 cr. due to reduction of basement in building 2 and 3 also due to removal of LG and UG floor. Further we are also going for economical Construction practice.

EMP Detail:

Environment Management Plan (Construction Phase)		
COMPONENT	CAPITAL COST (Rs in Lacs)	RECURRING COST (Rs in Lacs)/Annum
Barricading of construction site	26.15	5.75
Anti - smog gun with complete assembly (04 Nos.)	5	2.4
Dust mitigation measures	1.5	0.25

Site sanitation	2	1
Mobile STP	3	1
Disinfection/ Pest Control		0.5
Labour Health Check Up & First Aid Facility	1	0.5
Labor Welfare (canteen, creche, safe access road - water power, cooking kerosene/gas)	2.5	1.5
Wheel Washing	1	0.5
Waste Storage Bins - Labour Camp/Site Offices	1.5	0.75
Traffic Management Signages	1.5	0.15
Safety Training To Workers		1
Environment Monitoring & 6 Monthly Compliance Report of EC Conditions		2
TOTAL	45.1531	17.30

ENVIRONMENT MANAGEMENT PLAN (Operation Stage)		
COMPONENT	CAPITAL COST (Rs in Lacs)	RECURRING COST (Rs in Lacs)/Annum
Sewage Treatment Plant (3500 KLD) (2000+1500)	700	189.00
Rain Water Harvesting System (16 nos) Rain Water Storage Tanks With Filtration System	56	8.40
Solid Waste Storage Bins & Composter (organic waste converter)	245.79	162.22
Horticulture Development (Tree Plantation & Landscaping)	18.74	4.69
Roof Top Spv Plant (1522 kwp)	1217.6	0.00
Environment Monitoring & 6 Monthly Compliances of Environment Clearance Conditions		2.00
TOTAL	2238.13	366.30

4. In view of the recommendations made by State Expert Appraisal Committee (SEAC) in the said case and further consideration of the documents/details submitted by the Project Proponent; the Authority after discussions decided during **154th Meeting held on 21.03.2023** to **“GRANT ENVIRONMENT CLEARANCE” TO THE PROJECT, UNDER CATEGORY 8(b) of EIA NOTIFICATION, 2006 within the scope & meaning of EIA Notification dated 14.09.2006,** subject to the conditions listed below:

A. Specific Conditions:-

1. Sewage shall be treated in the STP based on latest Technology with tertiary treatment i.e. Ultra Filtration to achieve standards ordered by NGT. The Treated effluent from STP shall be recycled /reused for flushing, DG cooling and Gardening.
2. The Project Proponent would devise a monitoring plan to the satisfaction of the State Pollution Control Board so as to continuously monitor the treated waste water being used for flushing in terms of faecal coli forms and other pathogenic bacteria.
3. The PP shall ensure that total EMP Budget shall be spent on project during construction as well as during operational phase. The EMP cost on Socio Economic activities shall be used before the commencement of the project & EMP recurring

inside the project shall be implemented throughout the operation of the project. The PP shall establish Environment monitoring cell as per documents submitted.

4. The Project Proponents would commission a third party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.
5. Separate wet and dry bins must be provided in each unit and at ground level for facilitating segregation of waste. Solid Waste shall be segregated into wet garbage and inert materials. Wet Garbage shall be composted in Organic waste convertor. Adequate area shall be provided for solid waste management within the premises which will include area for segregation, composting. The Inert waste from the project will be sent to dumping site.
6. Traffic management plan as submitted shall be implemented in letter and spirit. Apart, a detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is marinated and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or purpose to be carried out by the project or other agencies in this 05kms radius of the site in different scenarios of space and time
7. The PP is required to plant 10 times trees at the project site and compensatory tree plantation will be done @1:10. No tree cutting has been proposed in the instant project. A minimum of 1 tree for every 80sqm of land should be planted and maintained. The Existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping.
- 8.

<u>That PP shall maintain 25.05% of the Total Plot area as Green Area i.e. 32814.57sqm (without any deviation). The Green Area i.e. 32814.57 sqm shall not be reduced/ modified or put to use for any other purposes at any stage.</u>
--

9. The Project Proponent shall obtain all necessary clearance/permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
10. In basements adequate ventilation/Exhaust fans shall be provided so that the polluted basement air shall be recharged from the cutouts located at the ground level.
11. The PP shall install the Eco Friendly Green Transformer based on ester oil to reduce the carbon footprint
12. Consent to establish/operate for the project shall be obtained from the State Pollution Control Board as required under the Air (Prevention and Control of pollution) Act, 1981 and the Water (Prevention and control of pollution) Act, 1974.
13. The Approval of the Competent Authority shall be obtained for structural safety of building code due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightening etc.
14. The PP shall not carry any construction above or below the Revenue Rasta.
15. The PP shall not carry any construction below the HT Line passing through the project.
16. The PP shall obtain the Fire NOC from the Competent Authority before taking occupation of the building.
17. The PP shall not give occupation or possession before the water supply and sewage connection permitted by the competent authority.
18. The PP shall not give occupation or possession before the electricity connection permitted by the competent Authority.
19. **The PP shall provide solar 1522 kWp**

20. The PP shall obtain the permission regarding withdrawal of ground water from CGWA before the start of the project and also obtained the CTO from HSPCB after the approval from CGWA.
21. The PP shall carry out the quarterly awareness programs for the stakeholders of the commercial colony/project.
22. **16 (03 Constructed) Rain Water Harvesting pits** shall be provided for rainwater usages as per the CGWB norms.
23. The PP shall install Digital water level recorder for monitoring the water recharge and carry out quarterly maintenance and cleaning of RWH pits.
24. The PP shall install **04 no of Anti smog gun** mounted on truck in the project for suppression of dust during construction and operational phase and shall use the treated water, if feasible, as per CAQM guidelines.
25. The PP shall take all preventive measures including water sprinkles to control dust during construction and operational phase.
26. The PP shall provide the mechanical ladder for use in case of emergency.
27. Any change in stipulations of EC will lead to Environment Clearance void-ab-initio and PP will have to seek fresh Environment Clearance.

B. Statutory Compliance:

1. The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority for ground coverage, FAR and should be in accordance with zoning plan approved by Competent Authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
2. The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of fire fighting equipment etc as per National Building Code including protection measures from lightening etc.
3. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.
4. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable and shall abide with the conditions imposed in NOC, if any issued by Forest Department and NBWL.
5. The project proponent shall obtain Consent to Establish/Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the Haryana State Pollution Control Board.
6. The PP shall obtain the permission for withdrawal of ground/surface water from competent authority before the start of the project and also obtain the CTO from HSPCB after the approval from competent authority.
7. A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
8. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.
9. The provisions of the Solid Waste (Management) Rules, 2016, e-Waste (Management) Rules, 2016, the Plastics Waste (Management) Rules, 2016 and Batteries Waste (Management Handling) Rules 2001 (as amended in 2020) shall be followed.
10. The project proponent shall follow the ECBC Act/ECBC-Rules prescribed by Bureau of Energy Efficiency, Ministry of Power strictly in addition of bylaws of the State Government.

I. Air Quality Monitoring and Preservation

- 1) Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.
- 2) A management plan shall be drawn up and implemented to contain the current

exceedance in ambient air quality at the site.

- 3) The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM₁₀ and PM_{2.5}) covering upwind and downwind directions during the construction period.
- 4) Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of ultra lowsulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board
- 5) Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.
- 6) Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.
- 7) Wet jet shall be provided for grinding and stone cutting.
- 8) Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.
- 9) All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Rules 2016.
- 10) The diesel generator sets to be used during construction phase shall be ultra lowsulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.
- 11) The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Ultra low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.
- 12) For indoor air quality the ventilation provisions as per National Building Code of India.

II. Water Quality Monitoring and Preservation

- 1) The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.
- 2) Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.
- 3) Total fresh water use shall not exceed the proposed requirement as provided in the project details. The per capita supply should adhere to NBC 2016 and CGWA Notification dated 12.12.2018.
- 4) The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
- 5) A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.

- 6) At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.
- 7) Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.
- 8) Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.
- 9) Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.
- 10) Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
- 11) The local bye-law provisions on rain water harvesting should be followed. If local byelaw provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain Water Harvesting pits shall be provided for ground water recharging as per the CGWB norms.
- 12) A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.
- 13) All recharge should be limited to shallow aquifer.
- 14) No ground water shall be used during construction phase of the project.
- 15) Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.
- 16) The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
- 17) Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC make up water and gardening. As proposed, no treated water shall be disposed in to municipal drain.
- 18) No sewage or untreated effluent water would be discharged through storm water drains.
- 19) Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.
- 20) Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.
- 21) Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

III. Noise Monitoring and Prevention

- 1) Ambient noise levels shall conform to residential area/commercial area both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely

monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.

- 2) Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
- 3) Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

IV. Energy Conservation Measures

- 1) Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency as per ECBC Act, 2017 read with ECBC Rules, 2018 shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC also which is in no case should be less than 25% as prescribed.
- 2) Outdoor and common area lighting shall be LED.
- 3) Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof R & U-values shall be as per ECBC specifications.
- 4) Energy conservation measures like installation of CFLs/ LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.
- 5) Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.
- 6) Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.
- 7) The PP will submit report indicating compliance of each parameter of ECBC requirement and submit quantification saving report for each component.

V. Waste Management

- 1) A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.
- 2) Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
- 3) Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.
- 4) Organic Waste Converter within the premises with a minimum capacity of 0.5 kg /person/day must be installed. Leaves to be put in earmarked pits for converting them into compost to be used as manure
- 5) All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.
- 6) Any hazardous waste generated during construction phase, shall be disposed of as per applicable rules and norms with necessary approvals of the State Pollution Control Board.
- 7) Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity.

These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.

- 8) Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.
- 9) Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.
- 10) Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination.

VI. Green Cover

- 1) No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).
- 2) A minimum of 1 tree (5' tall) for every 80 sqm of land should be planted and maintained. The existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping.
- 3) Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species (cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.
- 4) Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.

VII. Transport

- 1) A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.
 - a) Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
 - b) Traffic calming measures.
 - c) Proper design of entry and exit points.
 - d) Parking norms as per local regulation.
- 2) Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.
- 3) A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

VIII. Human Health Issues

1. All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.
2. For indoor air quality the ventilation provisions as per National Building Code of India.
3. Emergency preparedness plan based on the Hazard Identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
4. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
5. Occupational health surveillance of the workers shall be done on a regular basis.
6. A First Aid Room shall be provided in the project both during construction and operations of the project.

IX. Corporate Environment Responsibility

- 1) The project proponent shall comply with the provisions of CER, as applicable.
- 2) The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions. The company shall have defined system of reporting infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions and/ or shareholders/ stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
- 3) A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.
- 4) Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.

X. Miscellaneous

- 1) The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.
- 2) The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
- 3) The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
- 4) The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
- 5) The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under

the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.

- 6) The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
- 7) The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
- 8) The project proponent shall abide by all the commitments and recommendations made in the form-IA, Conceptual Plan and also that during their presentation to the Expert Appraisal Committee.
- 9) No further expansion or modifications in the plan shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Haryana. The project proponent shall seek fresh environmental clearance under EIA notification 2006 if at any stage there is change of area of this project.

10)

Any deviation/change in stipulations of EC/ Development plan, will leads to Environment Clearance void-ab-initio i.e. EC will become invalid for all intent and purposes.

- 11) The PP should give unambiguous affidavit giving land promoters in accordance with your ownership and possession of land legal the case referred for Environment Clearance to SEIAA.

12)

Concealing factual data or submission of false/fabricated data will result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.

- 13) The Ministry/SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- 14) The Ministry/SEIAA reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
- 15) The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
- 16) The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.
- 17) The Project proponent shall not violate any judicial orders/pronouncements issued by any Court/Tribunal
- 18) Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the Project Proponent if it was found that construction of the project has been started before obtaining prior Environmental Clearance.
- 19) Any appeal against the this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
- 20) The project proponent is responsible for compliance of all conditions in Environmental Clearance letter and project proponent can not absolve himself /herself of the responsibility by shifting it to any contractor engaged by project proponent.

21)

The validity of this environment clearance letter is valid up to 10 years from the date of issuance of EC letter in accordance with the MoEF & CC, GoI Notification No. S.O.1807 (E), dated the 12th April, 2022. The environment clearance conditions applicable till life span project will continue to apply. In case of violation the action will be taken as per the laid down law of land. Compliance report shall be sent to this office till life of the project.

22)

If project is not completed within the validity period then the project proponent shall submit the application for extension of validity within one month before the lapse of validity period of Environment Clearance.

23) The Project Proponent should intimate to the Authority as well as to the quarter concerned in case of any change in the present communication address.

Dated:17/08/2023

To.

M/s : SHOPPING/ COMMERCIAL BUILDING ON 32.36 ACRE SITE (MALL OF INDIA) IN BLOCK V DLF CITY PHASE II SECTOR 25
BLOCK 5 DLF CITY PHASE 3 SEC 25A GURUGRAM
GURGAON
122002

Sub. : Grant of consent to Establish to M/s SHOPPING/ COMMERCIAL BUILDING ON 32.36 ACRE SITE (MALL OF INDIA) IN BLOCK V DLF CITY PHASE II SECTOR 25

Please refer to your application no. 40433438 received on dated 2023-08-08 in regional office Gurgaon North.

With reference to your above application for consent to establish, M/s SHOPPING/ COMMERCIAL BUILDING ON 32.36 ACRE SITE (MALL OF INDIA) IN BLOCK V DLF CITY PHASE II SECTOR 25 is hereby granted consent as per following specification/Terms and conditions.

Consent Under	AIR/WATER
Period of consent	17/08/2023 - 08/04/2033
Industry Type	Building and Construction projects having waste water generation more than 100 KLD in respective of their built-up area
Category	RED
Investment(In Lakh)	356300.0
Total Land Area (Sq. meter)	130956.1
Total Builtup Area (Sq. meter)	875074.0
Quantity of effluent	
1. Trade	0.0 KL/Day
2. Domestic	1192.0 KL/Day
Number of outlets	1.0
Mode of discharge	
1. Domestic	Recycling/Reuse
2. Trade	0
Permissible Domestic Effluent Parameters	
1. BOD	10 mg/l

2. COD	50 mg/l
3. TSS	20 mg/l
4. pH	5.5-9.0
5. Faecal Coliform (MPN/100 ml)	Less than 100
6. Total Nitrogen	10 mg/l
7. Total Phosphorus (for discharge into Ponds, Lakes)	1 mg/l
Permissible Trade Effluent Parameters	
1. NA	mg/l
Number of stacks	1
Height of stack	
1. Stack attached to D.G.Set above roof level	6 meter
Permissible Emission parameters	
1. NA	
Capacity of boiler	
1. N.A.	Ton/hr
Type of Furnace	
1. N.A.	
Type of Fuel	
1. Diesel	0.5 KL/day

Regional Officer, Gurgaon North
Haryana State Pollution Control Board.

Terms and conditions

- The industry has declared that the quantity of effluent shall be 1192 KL/Day i.e 0KL/Day for Trade Effluent, 0 KL/Day for Cooling, 1192 KL/Day for Domestic and the same should not exceed .
- The above 'Consent to Establish' is valid for 60 months from the date of its issue to be extended for another one year at the discretion of the Board or till the time the unit starts its trial production whichever is earlier. The unit will have to set up the plant and obtain consent during this period.
- The officer/official of the Board shall have the right to access and inspection of the industry in connection with the various processes and the treatment facilities being provided simultaneously with the construction of building/machinery. The effluent should conform the effluent standards as applicable
- That necessary arrangement shall be made by the industry for the control of Air Pollution before commissioning the plant. The emitted pollutants will meet the emission and other standards as laid/will be prescribed by the Board from time to time.
- The applicant will obtain consent under section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 and under section 21/22 of the Air (Prevention & Control of Pollution) Act, 1981 as amended to-date-even before starting trial production

6. The above Consent to Establish is further subject to the conditions that the unit complies with all the laws/rules/decisions and competent directions of the Board/Government and its functionaries in all respects before commissioning of the operation and during its actual working strictly.
7. No in-process or post-process objectionable emission or the effluent will be allowed, if the scheme furnished by the unit turns out to be defective in any actual experience
8. The Electricity Department will give only temporary connection and permanent connection to the unit will be given after verifying the consent granted by the Board, both under Water Act and Air Act.
9. Unit will raise the stack height of DG Set/Boiler as per Board's norms.
10. Unit will maintain proper logbook of Water meter/sub meter before/after commissioning.
11. That in the case of an industry or any other process the activity is located in an area approved and that in case the activity is sited in an residential or institutional or commercial or agricultural area, the necessary permission for siting such industry and process in an residential or institutional or commercial or agricultural area or controlled area under Town and Country Planning laws CLU or Municipal laws has to be obtained from the competent Authority in law permitting this deviation and be submitted in original with the request for consent to operate.
12. That there is no discharge directly or indirectly from the unit or the process into any interstate river or Yamuna River or River Ghaggar.
13. That the industry or the unit concerned is not sited within any prohibited distances according to the Environmental Laws and Rules, Notification, Orders and Policies of Central Pollution control Board and Haryana State Pollution Control Board.
14. That of the unit is discharging its sewage or trade effluent into the public sewer meant to receive trade effluent from industries etc. then the permission of the Competent Authority owing and operating such public sewer giving permission letter to his unit shall be submitted at time of consent to operate.
15. That if at any time, there is adverse report from any adjoining neighbor or any other aggrieved party or Municipal Committee or Zila Parishad or any other public body against the unit's pollution; the Consent to Establish so granted shall be revoked.
16. That all the financial dues required under the rules and policies of the Board have been deposited in full by the unit for this Consent to Establish.
17. In case of change of name from previous Consent to Establish granted, fresh Consent to Establish fee shall be levied.
18. Industry should adopt water conservation measures to ensure minimum consumption of water in their Process. Ground water based proposals of new industries should get clearance from Central Ground Water Authority for scientific development of previous resource.
19. That the unit will take all other clearances from concerned agencies, whenever required.
20. That the unit will not change its process without the prior permission of the Board.
21. That the Consent to Establish so granted will be invalid, if the unit falls in Aravali Area or non conforming area.
22. That the unit will comply with the Hazardous Waste Management Rules and will also make the non-leachate pit for storage of Hazardous waste and will undertake not to dispose off the same except for pit in their own premises or with the authorized disposal authority.

23. That the unit will submit an undertaking that it will comply with all the specific and general conditions as imposed in the above Consent to Establish within 30 days failing which Consent to Establish will be revoked.
24. That unit will obtain EIA from MoEF, if required at any stage.
25. In case of unit does not comply with the above conditions within the stipulated period, Consent to Establish will be revoked.
26. That unit will obtain consent to operate from the board before the start of product activity.

Specific Conditions

Other Conditions :

1. Unit will take Consent to Operate before starting the occupation/ operation of the project. 2. The unit will install the project only on the premises for which unit has applied for NOC. 3. The unit will install adequate acoustic enclosures/ chambers on their D.G. sets with proper stack height as per prescribed norms to meet the prescribed standards under EP Rules, 1986. 4. Unit will comply the conditions mentioned in the letter dated 25-10-2019 of CPCB regarding mechanism for Environmental management. 5. This CTE expansion SO GRANTED is subject to the outcome of CAQM Decision w.r.t. letter No 16014/13/2021/MERD/C&D/SCN/ H,760-14761 DATED 03-08-2023. 6. Unit will register on Dust control & management app and will install anti smog gun and will submit the proof of the same. 7. Unit will run generator only on approved fuel in compliance to the direction of CAQM.

Regional Officer, Gurgaon North
Haryana State Pollution Control Board.

Terms and conditions

1. The applicants shall maintain good house keeping both within factory and in the premises. All hose pipelines valves, storage tanks etc. shall be leak proof. In plant allowable pollutants levels, if specified by State Board should be met strictly.
2. The applicant/company shall comply with and carry out directive/orders issued by the Board in this consent order at all subsequent times without negligence of his /its part. The applicant/company shall be liable for such legal action against him as per provision of the law/act in case of violation of any order/directives. Issued at any time and or non compliance of the terms and conditions of his consent order.
3. The applicant shall make an application for grant of consent at least 90 days before the date of expiry of this consent.
4. Necessary fee as prescribed for obtaining renewal consent shall be paid by the applicant alongwith the consent application.
5. If due to any technological improvement or otherwise this Board is of opinion that all or any of the conditions referred to above required variation (including the change of any control equipment either in whole or in part) this Board shall after giving the applicant an opportunity of being heard vary all or such condition and there upon the applicant shall be bound to comply with the conditions so varied.
6. The industry shall provide adequate arrangement for fighting the accidental leakages, discharge of any pollutants gas/liquids from the vessels, mechanical equipment etc. which are

likely to cause environment pollution.

7. The industry shall comply noise pollution (Regulation and control) Rules, 2000.

8. The industry shall comply all the direction/Rules/Instructions as may be issued by the MOEF/CPCB/HSPCB from time to time.

9. The industry shall ensure that various characteristics of the effluents remain within the tolerance limits as specified in EPA Standard and as amended from time to time and at no time the concentration of any characteristics should exceed these limits for discharge.

10. The industry would immediately submit the revised application to the Board in the event of any change in the raw material in process, mode of treatment/discharge of effluent. In case of change of process at any stage during the consent period, the industry shall submit fresh consent application alongwith the consent to operate fee, if found due, which may be on any account and that shall be paid by the industry and the industry would immediately submit the consent application to the Board in the event of any change during the year in the raw material, quantity, quality of the effluent, mode of discharge, treatment facilities etc.

11. The officer/official of the Board shall reserve the right to access for the inspection of the industry in connection with the various process and the treatment facilities. The consent to operate is subject to review by the Board at any time.

12. Permissible limits for any pollutants mentioned in the consent to operate order should not exceed the concentration permitted in the effluent by the Board.

13. The industry shall pay the balance fee, in case it is found due from the industry at any time later on.

14. If the industry fails to adhere to any of the conditions of this consent to operate order, the consent to operate so granted shall automatically lapse.

15. If the industry is closed temporarily at its own, they shall inform the Board and obtain permission before restart of the unit.

16. The industry shall comply all the Directions/ Rules/Instructions issued from time to time by the Board.

Specific Conditions :

1. Where ever it come to the notice of the Board at any stage that any unit, that unit has done any construction work after expiry of validity of CTE and EC , legal action under the relevant provisions of Water Act, 1974 and/or Air Act, 1981 will be taken against such units in that case for such violation and this CTO is prejudice to the action to be taken in respect of any violation found at any stage and time and this CTO also do not grant any relief to the unit in matter of applicable actions / penal proceedings under water act , Air act ,EP act including forfeiture of performance security. 2. Unit will run and maintain it's STP/ETP/APCM regularly and properly, will provide separate energy meter on their STP/ETP/APCM and maintain the Log Book for energy consumption of STP/ETP/APCM and chemicals used daily for the STP/ETP. 3. That the unit shall keep all the parameters within the prescribed limits and shall comply with all the Norms and Rules as prescribed in the Act. 4. That the unit will adopt cleaner technology thereby reducing pollution load. 5. That the unit will provide inter locking arrangement of DG set with STP/ETP/APCM and shall have separate D.G. set to ensure regular and effective running of pollution control devices. 6. That the unit will not discharge any untreated effluent inside and outside its premises. 7. Unit will provide separate flow meter at Inlet/ Outlet of STP/ETP for which separate log book will be maintained if required. 8. That the unit will not add any air polluting process/ machinery and also not to add any process which increases the

water pollution load. 9. That the unit will comply with all the provisions of Hazardous Waste Rules and submit return under HWM Rules on yearly basis. 10. That the CTO so granted shall become invalid in case of violation of any of the above / any law of the land. 11. Unit will apply for consent to operate for further period 90 days before expiry of this consent otherwise penalty will be imposed as per policy. 12. The inspection of the unit will be carried out by the authorized officer within a period of 3 months of grant of CTO for collection of samples and in case of failing of the same this CTO stands revoked automatically besides further necessary action will be as applicable as per policy of the Board. 13. The unit will apply for authorization under HWM rules, 2016. 14. Unit will deposit any balance CTE/CTO fee, if found at any stage and time. 15. Non- compliance of any conditions of CTO, if found at any stage and time, this CTO deemed revoked/cancelled automatically.

***Regional Officer, Gurgaon North

TO WHOMSOEVER IT MAY CONCERN

We have been engaged by DLF City Centre Limited, Registered address at Shopping Mall Complex, Arjun Marg, DLF City, Phase-I, Gurugram-122002 for Peer Review of Structural Design of the Project "Downtown" (Block 2 & Block-3), NH-8, Sec-25A at Gurugram.

We have reviewed the designs and drawings and certify that:

- The structural design has been carried out in accordance with the provisions of NBC, IS Codes, Standard Codes of Practices. Manuals & Hand-books issued by Bureau of Indian Standard and or any amendments thereof building bye-laws and specifications as stipulated by the Bureau of Indian Standards.
- All towers and high rise buildings have been designed as per Seismic consideration for Zone-V (IS 1893: 2016).
- The buildings/ structures have been designed for appropriate wind loads, all dead loads, live loads, shrinkage & temperature load etc. in all cases normal strengthening to resist distress during earthquake has been provided in the designs.
- The roof slab of extended basement (near ground level) external to the building has been designed to take fire tender load up to 75 MT.
- The Site conditions, such as conditions of soil, its load bearing capacity and the underground water table etc. has been considered while designing.
- The building structures are stable and meet all the safety, serviceability, durability, fire rating etc. and all relevant design criteria as stipulated in the latest BIS codes.

Memo. No. Ch-7/SE/Comml/R-17/380/F-21

Dated: 16/8/2018

Subject: Issue of Assurance letter for Power supply to developers / builders.

It has been reported by field offices that developers / builders are seeking assurance letter for power supply from DHBVN as required by them for following purposes:-

- 1) For getting approval of building plan from DGTCP Chandigarh.
- 2) For getting Environment Clearance from pollution control board of Haryana.

Since application for sanction of load / approval of electrification plan having load more than 500 KVA are being dealt with by SE/R-APDRP DHBVN, Hisar, clarification was sought by field offices regarding competent authority to issue assurance letter for power supply to developers / builders. Accordingly, matter was considered and it has been decided that assurance letter as per request of the developers / builders, may be issued by concerned SE/OP as per technical feasibility. Applicability of such assurance letter should be limited up to a period of maximum one year from date of its issuance.

The above instructions may be brought to the notice of all concerned for careful and meticulous compliance.

ANNEXURE VIII

Forest Department, Govt. of Haryana
Office of Dy. Conservator of Forests, Gurugram
Forest Complex, Sohna Road, Near Court, Gurugram, Ph. 0124-2655401

No.: 866-6

Dated: 8/7/17

To,

M/s DLF Ltd.,
Gateway Tower (5th Floor), DLF City, Phase-III,
Gurugram-122002, Haryana

Sub.: Clarification regarding Applicability of forest laws on Non Forest land Applied by Sh M/s DLF Ltd., land located at village **Nathupur** District Gurugram.

Applicant **M/s DLF Ltd., Gateway Tower(5th Floor), DLF City, Phase-III, Gurugram-122002, Haryana** letter no. Nil dated 29.12.2017 made a request in connection with land measuring **42.29 Acres** having Khasra No. 8, 9, 10, 11, 12, 13, 14, 15, 16, 18/1, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31/1/1, 31/2, 32, 33, 34, 35, 36, 424, 425/1/2, 426/1, 427, 427/1, 428, 429, 430min, 431, 432, 436min located at village **Nathupur** District **Gurugram**. Applicant made a proposal to use this land for **Proposed Shopping/Commercial Building "Mall of India" Purpose**. In reference to the information provided by the User Agency in form of facts/ Maps & GPS Co-ordinates and subsequent verification of the provided facts with the available official records & Geo-referencing done of the co-ordinates provided by User Agency on Google Earth the following is made clear that:-

- a) As per records available above said land is not part of notified Reserved Forest, Protected Forest under Indian Forest Act, 1927 or any area closed under section 4 & 5 of Punjab Land Preservation Act, 1900.
- b) It is clarified that by the Notification No. S.O.8/P.A 2/1900/S.4/2013 dated 4th January, 2013, whole Revenue Estate of Gurugram is notified u/s 4 of PLPA 1900 and S.O.81/PA.2/1900/S.3/2012 dated 19th December, 2012 u/s 3 of PLPA 1900. The area is however not recorded as forest in the Government record but felling of any tree is strictly prohibited without the permission of Divisional Forest Officer, Gurugram.
- c) It is clarified that by the Notification No. S.O.8/P.A 2/1900/S.4/2013 dated 4th January, 2013, whole Revenue Estate of Gurugram is notified u/s 4 of PLPA 1900 and not recorded as forest in the Government record but felling of any tree is strictly prohibited without the permission of Divisional Forest Officer, Gurugram.
- d) If approach is required from Protected Forest by the user agency, the clearance/regularization under Forest Conservation Act 1980 will be required. Without prior clearance from Forest Department, the use of Forest land for approach road is strictly prohibited. **M/s DLF Ltd.**, whose land is located at village **Nathupur** District **Gurugram** must obtain clearance as applicable under Forest Conservation Act 1980.
- e) As per the records available with the Forest Department, Gurugram, the area does not fall in areas where plantations were raised by the Forest Department under Aravalli project.
- f) All other statutory clearances mandated under the Environment Protection Act 1986, as per the notification of Ministry of Environment and Forests, Government of India, dated 07-05-1992 or any other Act/order shall be obtained as applicable by the project proponents from the concerned authorities.
- g) The project proponent will not violate any Judicial Order/ direction issued by the Hon'ble Supreme Court/ High Courts.
- h) It is clarified that the Hon'ble Supreme Court has issued various judgments dated 07.05.2002, 29.10.2002, 16.12.2002, 18.03.2004, 14.5.2008 etc. pertaining to Aravalli region in Haryana, which should be complied with.
- i) The aforesaid clarification is for the facts/location maps/GPS Co-ordinates provided by the user agency.

GPS Co-ordinates:-

महोदय
/Sir(s),

कृपया आपके पत्र क्रमांक OIN1324152 दिनांक 18/03/2023 का अवलोकन करें।

Please refer to your letter No. OIN1324152 dated 18/03/2023

विषयान्तर्गत अधिष्ठापन में निम्नलिखित पेट्रोलियम पदार्थों के वर्ग तथा मात्रा के भंडारण के लिए पेट्रोलियम नियम, 2002 के अधीन प्ररूप - XV में स्वीकृत, दिनांक 31/12/2025 तक वैध अनुज्ञप्ति संख्या P/NC/HN/15/2004 (P533359) दिनांक 20/03/2023 भेजी जा रही है।

Licence No. P/NC/HN/15/2004 (P533359) dated 20/03/2023 granted in Form XV under the Petroleum Rules, 2002 and valid till 31/12/2025 for the storage of the following kinds and quantities of Petroleum at the subject installation is forwarded herewith.

पेट्रोलियम का विवरण /Description of Petroleum	किलोलीटरों में अनुज्ञप्त क्षमता /Quantity licenced in KL
वर्ग क प्रपुंज पेट्रोलियम /Petroleum Class A in bulk	NIL
वर्ग क प्रपुंज पेट्रोलियम से भिन्न /Petroleum Class A, otherwise than in bulk	NIL
वर्ग ख प्रपुंज पेट्रोलियम /Petroleum Class B in bulk	60.00 KL
वर्ग ख प्रपुंज पेट्रोलियम से भिन्न /Petroleum Class B, otherwise than in bulk	NIL
वर्ग ग प्रपुंज पेट्रोलियम /Petroleum Class C in bulk	NIL
वर्ग ग प्रपुंज पेट्रोलियम से भिन्न /Petroleum Class C, otherwise than in bulk	NIL
कुल क्षमता /Total Capacity	60.00 KL

कृपया पेट्रोलियम नियम 2002 के अधीन बनाए गए नियम 148 में दी गई प्रक्रिया का कड़ाई से पालन करें और अनुज्ञप्ति के नवीकरण हेतु समस्त दस्तावेजों को अनुज्ञप्ति की वैधता समाप्ति की तारीख या उससे पूर्व इस कार्यालय को प्रेषित करें।

Please follow the procedure strictly as laid down in rule 148 of the Petroleum Rules, 2002 and submit complete documents for further renewal of the licence to this office, so as to reach on or before the date on which licence expires.

यह अनुमोदन/ अनुमति अन्य प्राधिकारियों से आवश्यक अनुमति/क्लीयरन्स प्राप्त करने से या यथा लागू अन्य विधियों से छूट नहीं देती है।

This approval/permission, however, does not absolve from obtaining necessary permission/clearance from other authorities or under other statutes as applicable.

भवदीय /Yours faithfully,

((सुनील मनोहर सिंह)

Report No	IRDH-0324-COM-AAQ-1211-02
Date of Reporting	16/03/2024
Issued to	M/s Ind Tech House Consult, G-8/6, Ground Floor, Sector-11, Rohini, Delhi-110085
Project Name	Shopping/Commercial Building on 32.36 acres site(Mall of India) in Block-V,DLF City Phase-III,Sector-25A, Gurgaon, Haryana By M/S DLF City Centre Limited
Location	Near Site Office
Date of Sampling	09/03/2024 to 10/03/2024
Type of Monitoring	Ambient Air Monitoring(24 hourly)
Parameters to be sampled	PM _{2.5} , PM ₁₀ , SO ₂ , NO ₂ , CO, O ₃ , Pb, NH ₃ , C ₆ H ₆ , Benzo α Pyrene, As, Ni
Weather condition	Clear sky
Method of sampling	As per standard Method
Sample drawn by	IR&DH Team

RESULTS

S. No	Parameter	Method	Results	Unit	Requirement (CPCB limits)#
1.	Particulate Matter as PM _{2.5}	IRDH/SOP/AAQM/01:2013	82.0	µg/m ³	60
2.	Particulate Matter as PM ₁₀	IS 5182 P- 23:2012	176.0	µg/m ³	100
3.	Sulphur dioxide as SO ₂	IS 5182 P-02: 2012	8.02	µg/m ³	80
4.	Nitrogen dioxide as NO ₂	IS 5182 P-06: 2012	24.5	µg/m ³	80
5.	Carbon monoxide as CO	IRDH/SOP/AAQM/08:2015	0.97	mg/m ³	4.0(1 Hourly)
6.	Ozone (as O ₃)	IRDH/SOP/AAQM/10:2015	18.6	µg/m ³	100 (8 Hourly)
7.	Lead (Pb)	IS:5182 Part 22:2014	<0.1	µg/ m ³	1
8.	Ammonia (NH ₃)	IRDH/SOP/AAQM/09:2015	20.6	µg/ m ³	400
9.	Benzene (C ₆ H ₆)	IRDH/SOP/AAQM/11:2015	<1.0	µg/ m ³	5
10.	Benzo α Pyrene	IRDH/SOP/AAQM/12:2015	<1.0	ng/ m ³	1
11.	Arsenic (As)	IRDH/SOP/AAQM/06:2013	<1.0	ng/ m ³	6
12.	Nickel (Ni)	IRDH/SOP/AAQM/07:2015	<1.0	ng/ m ³	20

TEST REPORT (Ambient Noise)

Report No	IRDH-0324-COM-ANQ-1211
Date of Reporting	16/03/2024
Issued to	M/s Ind Tech House Consult, G-8/6, Ground Floor, Sector-11, Rohini, Delhi-110085
Project Name	Shopping/Commercial Building on 32.36 acres site(Mall of India) in Block-V,DLF City Phase-III,Sector-25A, Gurgaon, Haryana By M/S DLF City Centre Limited
Location	Near Entry Gate (ANQ ₁), Near Site Office, (ANQ ₂) Back Side of the Building (ANQ ₃)
Date of Sampling	09/03/2024 to 10/03/2024
Type of Monitoring	Ambient Noise Monitoring
Method of sampling	As per standard Method
Sampling Protocol	IRDH/SOP-NS/22
Duration of Monitoring	24 hourly
Sample drawn by	IR&DH Team

RESULT

All values are in dB (A)

Sr. No.	Locations	Day Time (Lday) 06:00AM - 10:00PM	Night Time (Lnight) 10:00PM - 06:00AM
ANQ -1	Near Entry Gate	53.6	43.7
ANQ -2	Near Site Office	51.9	42.2
ANQ -3	Back Side of the Building	50.2	40.7

CPCB Limits			
Sr. No		Day Time	Night Time
1.	Industrial area	75	70
2.	Commercial area	65	55
3.	Residential area	55	45
4.	Silence Zone	50	40

TEST REPORT (DG Stack Emission)

Report No.	IRDH-0324-COM-SS-1211-01
Date of reporting:	16/03/2024
Issued to	M/s Ind Tech House Consult, G-8/6, Ground Floor, Sector-11, Rohini, Delhi-110085,
Project Name	Shopping/Commercial Building on 32.36 acres site(Mall of India) in Block-V,DLF City Phase-III,Sector-25A, Gurgaon, Haryana By M/S DLF City Centre Limited
Date of sampling	09/03/2024
Sampling protocol	IS 11255P-1 1985
Identification of emission	DG Set No 1
Source of emission	Stack attached to DG set
Make/model of DG Set	Cummins
Capacity of D. G. Set, KVA	2250
Identification of stack	M.S. , Round
Purpose of monitoring	Compliance
Working hours of D G.	When required
Diameter of Stack, in cm	25
Stack Height from roof, in meter	30.0
Fuel used	HSD
Duration of sampling , in minutes	30.0
Avg. Velocity, m/s	8.4
Ambient Temperature, in °C	29.3
Stack Temperature, in °C	272

RESULTS

S. No.	Parameters	Units	Result	Methods	CPCB Emission limit more than 0.8 MW (800 KW)
1.	PM (at 15%O ₂)	mg/Nm ³	46.0	IS 11255 (Part 1) 2014	75
2.	NO _x (as NO ₂) (at15%O ₂),dry basis	ppmv	34.5	IRDH/SOP/AAQM/11:2015	710
3.	Carbon Monoxide(CO) (at 15%O ₂)	mg/Nm ³	5.3	IRDH/SOP/AAQM/08:2015	150
4.	NMHC(as C) (at 15%O ₂)	mg/Nm ³	3.6	IRDH/SOP/AIR SS/15:2020	100

TEST REPORT (DG Stack Emission)

Report No.	IRDH-0324-COM-SS-1211-04
Date of reporting:	16/03/2024
Issued to	M/s Ind Tech House Consult, G-8/6, Ground Floor, Sector-11, Rohini, Delhi-110085,
Project Name	Shopping/Commercial Building on 32.36 acres site(Mall of India) in Block-V,DLF City Phase-III,Sector-25A, Gurgaon, Haryana By M/S DLF City Centre Limited
Date of sampling	09/03/2024
Sampling protocol	IS 11255P-1 1985
Identification of emission	DG Set No 4
Source of emission	Stack attached to DG set
Make/model of DG Set	Cummins
Capacity of D. G. Set, KVA	2250
Identification of stack	M.S. , Round
Purpose of monitoring	Compliance
Working hours of D G.	When required
Diameter of Stack, in cm	25
Stack Height from roof, in meter	30.0
Fuel used	HSD
Duration of sampling , in minutes	30.0
Avg. Velocity, m/s	14.6
Ambient Temperature, in °C	29.7
Stack Temperature, in °C	292

RESULTS

S. No.	Parameters	Units	Result	Methods	CPCB Emission limit more than 0.8 MW (800 KW)
1.	PM (at 15%O ₂)	mg/Nm ³	40.6	IS 11255 (Part 1) 2014	75
2.	NO _x (as NO ₂) (at15%O ₂),dry basis	ppmv	32.0	IRDH/SOP/AAQM/11:2015	710
3.	Carbon Monoxide(CO) (at 15%O ₂)	mg/Nm ³	5.3	IRDH/SOP/AAQM/08:2015	150
4.	NMHC(as C) (at 15%O ₂)	mg/Nm ³	4.5	IRDH/SOP/AIR SS/15:2020	100

Valid Upto: 26-02-2026

No Objection Certificate for Height Clearance

1. This NOC is issued by Airports Authority of India (AAI) in pursuance of responsibility conferred by and as per the provisions of Govt. of India (Ministry of Civil Aviation) order GSR751 (E) dated 30th Sep. 2015 for Safe and Regular Aircraft Operations.

2. This office has no objection to the construction of the proposed structure as per the following details:

NOC ID :	PALM/NORTH/B/012318/275881
Applicant Name*	Pawan Chawla
Site Address*	32.36 Acres Shopping/Commercial Block V Sector 25a ,DLF Phase III, Gurgaon, Haryana
Site Coordinates*	77 05 35.29-28 30 06.93, 77 05 43.30-28 30 17.43, 77 05 45.25-28 30 16.09, 77 05 46.68-28 30 08.94, 77 05 46.74-28 30 01.07, 77 05 46.86-28 30 15.57, 77 05 47.13-28 30 14.34, 77 05 48.71-28 30 05.98, 77 05 49.30-28 30 04.18,
Site Elevation in mtrs AMSL as submitted by Applicant*	243.32 M
Permissible Top Elevation in mtrs Above Mean Sea Level(AMSL)	281.8

*As provided by applicant

3. This NOC is subject to the terms and conditions as given below:

a. Permissible Top elevation has been issued on the basis of Site coordinates and Site Elevation submitted by Applicant. AAI neither owns the responsibility nor authenticates the correctness of the site coordinates & site elevation provided by the applicant. If at any stage it is established that the actual data is different, this NOC will stand null and void and action will be taken as per law. The office in-charge of the concerned aerodrome may initiate action under the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994"

b. The Structure height (including any superstructure) shall be calculated by subtracting the Site elevation in AMSL from the Permissible Top Elevation in AMSL i.e. Maximum Structure Height = Permissible Top Elevation minus (-) Site Elevation.

c. The issue of the 'NOC' is further subject to the provisions of Section 9-A of the Indian Aircraft Act, 1934 and any notifications issued there under from time to time including the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994.

भारतीय विमानपत्तन प्राधिकरण AIRPORTS AUTHORITY OF INDIA

- d. No radio/TV Antenna, lighting arresters, staircase, Mumtee, Overhead water tank and attachments of fixtures of any kind shall project above the Permissible Top Elevation of 281.8 M (Restricted) , as indicated in para 2.
- e. Only use of oil fired or electric fired furnace is permissible, within 8 KM of the Aerodrome Reference Point.
- f. The certificate is valid for a period of 8 years from the date of its issue. If the construction of structure/Chimney is not commenced within the period, a fresh 'NOC' from the Designated Officer of Airports Authority of India shall be obtained. However, if construction work has commenced, onetime revalidation request, for a period not exceeding 8 years from the date of issue of NOC in respect of building/structure and for a period not exceeding 12 years from the date of issue of NOC in respect of chimney, may be considered by AAI. The date of completion of the Structure should be intimated to this office.
- g. No light or a combination of lights which by reason of its intensity, configuration or colour may cause confusion with the aeronautical ground lights of the Airport shall be installed at the site at any time, during or after the construction of the building. No activity shall be allowed which may affect the safe operations of flights
- h. The applicant will not complain/claim compensation against aircraft noise, vibrations, damages etc. caused by aircraft operations at or in the vicinity of the airport.
- i. Day markings & night lighting with secondary power supply shall be provided as per the guidelines specified in chapter 6 and appendix 6 of Civil Aviation Requirement Series 'B' Part I Section 4, available on DGCA India website: www.dgca.nic.in
- j. The applicant is responsible to obtain all other statutory clearances from the concerned authorities including the approval of building plans. This NOC for height clearances is to ensure the safe and regular aircraft operations and shall not be used as document for any other purpose/claim whatsoever, including ownership of land etc.
- k. This NOC has been issued w.r.t. the Civil Airports. Applicant needs to seek separate NOC from Defence, if the site lies within their jurisdiction.
- l. In case of any discrepancy/interpretation of NOC letter, English version shall be valid.
- m. In case of any dispute w.r.t site elevation and/or AGL height, top elevation in AMSL shall prevail.

ANNEXURE XVII

Environment Policy

25th January 2023

DLF recognizes the importance of protecting the environment through adopting appropriate mitigating and control measures, during Construction, Operations and Maintenance of its projects/ assets.

We will ensure adequate controls and processes to safeguard the environment in accordance with the relevant regulations/ standards/ guidelines.

We are committed to:

- Compliance of environmental legislation and regulation stipulated by statutory bodies from time to time.
- Maintain transparency in matters of Environmental compliance.
- Creating the required awareness on Environmental requirements and statutory norms with the aim of increasing environmental stewardship amongst employees, public, and other stake holders.
- Conducting our activities in an environmentally responsible manner that fosters sustainability.
- Minimizing the negative impact of our operations on the environment by improving the efficiency of natural resources usage, waste management processes and encouraging the integration of renewable energy resources wherever possible.
- Deploying/ developing the right resources and competence to understand and implement environmental measures as per best management practices applicable to the industry.
- Working for continual improvement of our environmental performance through focused objectives, performance targets and certifications as required.
- Reviewing this policy at regular intervals.

पर्यावरण नीति

25 जनवरी 2023

डीएलएफ अपनी परियोजनाओं/ संपत्तियों के निर्माण, संचालन और रखरखाव के दौरान उपयुक्त न्यूनीकरण और नियंत्रण उपायों को अपनाकर पर्यावरण की रक्षा करने के महत्व को पहचानता है। हम संबंधित विनियमों/ मानकों/ दिशानिर्देशों के अनुसार पर्यावरण की सुरक्षा के लिए पर्याप्त नियंत्रण और प्रक्रियाएं सुनिश्चित करेंगे।

हम इसके लिए प्रतिबद्ध हैं:

- समय-समय पर वैधानिक निकायों द्वारा निर्धारित पर्यावरणीय कानून और विनियमन का अनुपालन।
- पर्यावरण अनुपालन के मामलों में पारदर्शिता बनाए रखना।
- कर्मचारियों, जनता और अन्य हितधारकों के बीच पर्यावरणीय नेतृत्व बढ़ाने के उद्देश्य से पर्यावरणीय आवश्यकताओं और वैधानिक मानदंडों पर आवश्यक जागरूकता करना।
- हमारी गतिविधियों को पर्यावरणीय रूप से जिम्मेदार तरीके से संचालित करना जो निरंतरता को बढ़ावा देता है।
- प्राकृतिक संसाधनों, अपशिष्ट प्रबंधन प्रक्रियाओं के उपयोग की दक्षता में सुधार करके और जहां भी संभव हो नवीकरणीय ऊर्जा संसाधनों के एकीकरण को प्रोत्साहित करके पर्यावरण पर हमारे संचालन के नकारात्मक प्रभाव को कम करना।
- उद्योग पर लागू सर्वोत्तम प्रबंधन प्रथाओं के अनुसार पर्यावरणीय उपायों को समझने और कार्यान्वित करने के लिए सही संसाधनों और क्षमता को तैनात/ विकसित करना।
- केंद्रित उद्देश्यों, प्रदर्शन लक्ष्यों और आवश्यकतानुसार प्रमाणपत्रों के माध्यम से हमारे पर्यावरणीय प्रदर्शन के निरंतर सुधार के लिए काम करना।
- नियमित अंतराल पर इस नीति की समीक्षा करना।

पी. रामकृष्णन

चीफ टेक्निकल ऑफिसर, डीएलएफ लिमिटेड
