Sub: Submission of Six-monthly Compliance Report of Stipulated Conditions of Environmental Clearance for Affordable Plotted Housing Colony under Deen Dayal Jan Awas Yojana (DDJAY) over land area measuring 26.91875 acres in Sector 93, Village Hayatpur, Sub Tehsil Hasaru, District Gurugram, Haryana for period of October 2024 to March 2025.

Sir,

In accordance to the condition of Environmental Clearance for the above project received from State Environmental Impact Authority (SEIAA), Haryana, vide Identification no. EC22B039HR127912 File No. SEIAA/HR/2021/409 dated 28/04/2022; we are submitting herewith six monthly Compliance report of stipulated condition of Environmental Clearance (in soft copy "as notification in Gazette of India on 28th November 2018") for the period of October 2024 to March 2025.

Thanking you!
Yours Sincerely,

For M/s DLF LIMITED

Copy to:

1. Chairman, Haryana State Pollution Control Board (HSPCB), C-11, Sector-6, Panchkula, Haryana.

CHAPTER-1**INTRODUCTION AND PROJECT DESCRIPTION****1.1 INTRODUCTION**

The Proposed Affordable Plotted Housing Colony under Deen Dayal Jan Awas Yojana (DDJAY) over land area measuring 26.91875 acres in Sector 93, Village Hayatpur, Sub Tehsil Hasaru, District Gurugram, M/S DLF LIMITED

This project has been granted environmental clearance **Identification No. EC22B039HR127912** & File no **SEIAA/HR/2021/409 dated 28th April, 2022** by the State Level Environment Impact Assessment Authority, Haryana copy of the same is attached as **annexure-1**.

1.2 PROJECT DESCRIPTION**Table 1.1: Brief Description of project (As per Approved EC)**

Sr. No.	Particulars	
01	Plot Area	108936.316 sqm
02	Net Plot Area	108831.098 sqm
03	Proposed Ground Coverage	36154.09 sqm(Residential) 2606 sqm (Commercial)
04	Proposed FAR	Residential- 130900.800 sqm Commercial- 7636 sqm
05	Non-FAR Area	133051.459 sqm
06	Total Built Up area	271588.259 sqm
07	Total Green Area with %	6524.370sqm (21.467% of net plot area)
08	Rain Water Storage Tanks	27 Nos.
09	STP Capacity	725 KLD
10	Total Parking	1621 ECS
11	Organic Waste Converter	04 No.
12	Total Green Area	15251.08 sqm

1.3 PRESENT STATUS

The Project is in Construction phase.

1.4 PURPOSE OF THE REPORT

- Monitoring compliances and status of implementations to adhere with EC conditions.
- Transparency and accountancy by providing record of environment performance and compliance efforts.
- Protection of environment through adoption of various mitigation measures for environmental components with support of monitoring data.

CHAPTER-2

COMPLIANCE OF STIPULATED CONDITIONS OF ENVIRONMENTAL CLEARANCE

Name of Project	Proposed Affordable Plotted Housing Colony under Deen Dayal Jan Awas Yojana (DDJAY) over land area measuring 26.91875 acres in Sector 93, Village Hayatpur, Sub Tehsil Hasaru, District Gurugram
EC Identification No.	EC22B039HR127912 Dated: - 28/04/2022
File No.	SEIAA/HR/2021/409
Period of compliance Report	October 2024 to March 2025

PART A – SPECIFIC CONDITIONS

I.	Sewage shall be treated in the STP based on latest Technology with tertiary treatment i.e. Ultra Filtration to achieve standards ordered by NGT. The Treated effluent from STP shall be recycled /reused for flushing. DG cooling and Gardening. The Dimension of each component of STP should be properly designed as per Norms.	Sewage will be treated in the STP of 725 KLD capacity based on MBBR technology with tertiary treatment i.e. Ultra filtration. The treated effluent from STP will be recycled/re-used for flushing, gardening, car and street washing. STP will be designed as per the norms.
II.	The PP should provide separate services across revenue Rasta or carry out construction after approval of Competent Authority.	Approval from the Commissioner of Municipal corporation, Manesar has been taken. Copy of the same is attached as Annexure 02.
III.	The PP shall spend Rs.5 lakhs on various wildlife conservation activities like artificial nests on the tree, digging of ponds and construction of feeding platforms through Environment Management Plan.	The required amount will be expend for Habitat quantity and quality will be improved along with other measures for wild life conservation.
IV.	The PP shall handover the 10% of the area for community development to the authorities as per approval.	Noted.
V.	The PP shall also develop the Miyawaki Forest as proposed in the EMP with the capital cost of 7.5 lakhs in the area of 1200 sqm outside the project area and maintain the same. The Miyawaki forest shall be develop under the guideline of MD forest corporation Haryana	1200 sqm area will be develop under Miyawaki forest under as per the guideline of MD forest corporation Haryana. Undertaking/affidavit has already been submitted at the time of appraisal.
VI.	The Project Proponent would devise a monitoring plan to the satisfaction of the State Pollution Control Board so as to continuously monitor the treated waste water being used for flushing in terms of faecal coli forms and other pathogenic bacteria.	Noted. Same will be complied in operation phase.
VII.	The PP shall ensure that total 2% of the cost of project shall be spent on EMP Budget. However, the amount and component shown in EMP table above shall also be included for the purpose of 2% amount. The EMP cost on Socio Economic	EMP budget is being spent as per the details given for the constriction phase. For Operational phase, EMP will be spent as per the details given in the EC letter. Environmental monitoring cells has been

	activities shall be used before the commencement of the project & EMP recurring inside the project shall be implemented throughout the operation of the project. The PP shall establish Environment monitoring cell as per documents submitted.	created for the project.
VIII.	The PP shall not carry out any construct above and below revenue rasta passing through the project and ensure that permission of the competent authority shall be obtained before carry out any construction above or below the revenue rasta. The PP shall put notice board on the revenue rasta for the passer byes.	No construction will be carried out on or above or below the revenue rasta.
IX.	The project proponent shall upload the status of compliance of the basic details (given in above tables), stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.	Six-monthly compliance report is being uploaded regularly on the website of the company.
X.	The Project Proponents would commission a third-party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.	Noted. Same will be done in operation phase of the project site
XI.	Separate wet and dry bins must be provided in each unit and at ground level for facilitating segregation of waste. Solid Waste shall be segregated into wet garbage and inert materials. Wet Garbage shall be composted in Organic waste convertor. Adequate area shall be provided for solid waste management within the premises which will include area for segregation, composting. The Inert waste from the project will be sent to solid waste dumping site through authorized vender.	Separate wet and dry bins have been provided for segregation of waste at the construction site. Solid waste is being handed over to authorized vendor for safe disposal/recycle in Construction phase. During Operation phase Bio-degradable waste will be decomposed in organic waste convertor and non-biodegradable waste will be handed over to authorized vendor for safe disposal/recycle.
XII.	Traffic management plan as submitted shall be implemented in letter and spirit. Apart, a detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is marinated and improved upon after the implementation of the project. This plan should be based on cumulative impact of all	Traffic management plan has been submitted with EC application and will be implemented in later and sprit. The project is within the master plan of Gurugram.

	development and increased habilitation being carried out or purpose to be carried out by the project or other agencies in this 05kms radius of the site in different scenarios of space and time.	
XIII.	No tree cutting has been proposed in the instant project. A minimum of 1 tree for every 80sqm of land should be planted and maintained. The Existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping. As proposed 15251.08sqm (14% of net plot area) shall be provided for Green Area development for whole project.	41 no. of trees have been cut at the project site; permission Regarding from Forest department has already been obtained. Copy of the same is attached as Annexure 03 Compensatory trees will be planted in appropriate stage of site development. The criteria have been followed in calculating the nos. of tree to be planted at the project site. Plant species selected for the project are mostly indigenous type with less water demand and broad leaves.
XIV.	The Project Proponent shall obtain all necessary clearance/permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.	License, zoning approvals and building plan approvals has been obtained from town planning authority before start of Construction work. Construction work of building is being carried out in accordance of the approved building plans.
XV.	Consent to establish/operate for the project shall be obtained from the State Pollution Control Board as required under the Air (Prevention and Control of pollution) Act, 1981 and the Water (Prevention and control of pollution) Act, 1974.	Consent to Established from State pollution Control Board has been obtained vide letter no. 329962322GUNOCTE24509503 , dated 17/06/2022 valid upto 27/04/2032, before the start of construction. Copy of CTE is attached as Annexure 04 .
XVI.	The Approval of the Competent Authority shall be obtained for structural safety of building code due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightening etc.	The approvals from competent authority regarding Structure safety, earthquake and firefighting are not required as it is plotted housing colony.
XVII.	The PP shall obtain the Fire NOC from the Competent Authority before taking the occupation of the building.	NOC from fire department is not required as it is a group housing colony.
XVIII.	The PP shall install the Eco Friendly Green Transformer based on ester oil to reduce the carbon footprint. The PP shall shift to gas based generator set when the gas is available. The PP shall install APCM for the DG set. The PP shall reduce the So2 load by 30% if HSD is used. The DG sets will be operated for maximum 04 hours during power failure through Executing Agency	Eco Friendly Green Transformer will be provided at appropriate stage of site development. All the DG sets during operation phase will be "enclosed type" to prevent noise and should conform to rules made under Environment (Protection) Act 1986, prescribed for air and noise emission standards. Stack height will kept as per CPCB norms. Low-sulphur fuel will be used and the DG sets will be operated only during power failure.

XIX.	The PP shall not give occupation or possession before the water supply and sewage connection permitted by the competent authority.	Occupation or possession will be provided after obtaining the permission from competent authority.
XX.	The PP shall not give occupation or possession before the electricity connection permitted by the competent Authority.	Occupation or possession will be provided after getting electricity connection.
XXI.	The PP shall obtain the permission regarding withdrawal of ground water from HWRA/CGWA before the start of the project and also obtained the CTO from HSPCB after the approval from HWRA/CGWA.	Ground water extraction is prohibited in Gurgaon. So, no Ground water extraction will be done at any stage of project.
XXII.	The PP shall carry out the quarterly awareness programs for the stakeholders of the project	Quarterly awareness programs will be carried out for the stake holders of the project.
XXIII.	27 Rain water harvesting recharge pits shall be provided for ground water recharging as per the CGWB norms including plots.	27 no. of Rain water harvesting pits will be provided at appropriate stage of site development.
XXIV.	The PP shall install Digital water level recorder for monitoring the water recharge and carry out quarterly maintenance and cleaning of 27 RWH pits.	Same will be provided in Operation phase.
XXV.	The PP shall provide the Anti smog gun mounted on vehicle in the project for suppression of dust during construction & operational phase and shall use the treated water, if feasible.	Anti-smog guns are available at site. Regular water sprinkling is being done to suppress dust generated from project site during construction.
XXVI.	The PP shall take all preventive measures including water sprinkles to control dust during construction and operational phase.	Regular water sprinkling is being done to control dust generation from project site in construction phase and will be done in operation phase.
XXVII.	Any change in stipulations of EC will lead to Environment Clearance void-ab-initio and PP will have to seek fresh Environment Clearance.	Noted
XVIII.	The excess treated water shall be reused in nearby DLF Project for construction purpose.	Noted.
XXIX.	The PP shall provide the separate services without crossing the revenue rasta in three pocket i.e. zone A, B&C	Approval from the Commissioner of Municipal corporation Manesar has been taken. Copy of the same is attached as Annexure 02.
XXX.	The PP shall install Retrofit emission control devices for DG sets approved by CPCB to further reduce the emission by intervening the exhaust. The emission level shall comply with the CPCB guidelines of Norms.	DG sets complying CAQM guidelines is provided at the project site.
XXXI.	Adequate studies have been carried out to ascertain that there would not be any obstruction or impediment in general traffic in vicinity of the project due to the said expansion of the project	Traffic study has been carried out and same has been submitted along with EC application.

XXII.	The PP shall install the DG set of 4000 KVA capacity and reduce the power backup undertaking.	DG sets of 4000 KVA will be installed in operation phase of the Project. DG sets will be only used as the Power Backup.
XXIII.	The PP shall install the DG set based on multi fuel injection system and capacity and will shift DG set on the gas as and when available.	Noted and Same will be complied.
XXIV.	before starting of the construction, Project proponent shall obtain requisite sewer connection/permission from the competent Authority.	Permission from competent authority will be obtained before operation of the project.

PART B– Standard Conditions/Statutory compliance:

1.	The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority for ground coverage, FAR and should be in accordance with zoning plan approved by competent authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.	License, zoning approvals and building plan approvals have been obtained from town planning authority before start of Construction work. Construction work of building is being carried out in accordance of the approved building plans.
2.	The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc as per National Building Code including protection measures from lightening etc.	The approvals from competent authority regarding Structure safety, earthquake and firefighting are not required as it is plotted housing colony.
3.	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.	NOC from forest department has been obtained vide reference no. KD0-5DP-U12N dated 26-10-2021. And copy of Aravali has been obtained vide letter no. 75/M.B. dated 17-11-2021. Copy of the same is attached as Annexure 05.
4.	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	Not Applicable.
5.	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.	Consent to Established from State pollution Control Board has been obtained vide letter no. 329962322GUNOCTE24509503 , dated 17/06/2022 valid upto 27/04/2032, before the start of construction. Copy of CTE is attached as Annexure 04.
6.	The project proponent shall obtain the necessary permission for drawl of ground water / surface water required for the project from the competent authority.	Ground water extraction is not involved in the project.
7.	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.	Same will be obtained before start of the operation of the project site.

8.	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, and Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.	Statutory clearances will be obtained at appropriate stage of project development.
9.	The provisions of the Solid Waste (Management) Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste (Management) Rules, 2016 shall be followed.	All the waste will be managed as per norms during the operation of the project site, however during construction phase all waste generated at site is being handed over to authorized vendor for safe disposal/recycle.
10.	The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly in addition of bylaws of the State Government.	Construction of the project site is being done as per ECBC-R norms.
I.	Air quality monitoring and preservation	
i.	Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.	Barricades of adequate height has already been provided at the site. Other Dust mitigation measures like water sprinkling, metal roads, cement in enclosures and covering of loose construction materials, has also been provided at site. Notification GSR 94(E) dated 25.01.2018 is being followed.
ii.	A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.	A proper management plan is adopted to contain the current exceedance in ambient air quality at the site.
iii.	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5) covering upwind and downwind directions during the construction period.	Online Monitoring system for continuous monitoring of PM10 and PM2.5 is available at the project site.
iv.	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board.	DG sets complying CAQM guidelines is provided at the project site.
v.	Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind	Dust mitigation measures like site barricades, water sprinkling, metal roads, cement stored in enclosures and covering of loose construction materials, are being used at site. Valid PUC certified and plastic/tarpaulin

	breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.	covered vehicles have been used at project site. Photographs are attached as Annexure 07 .
vi.	Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.	Sand, murram, loose soil, cement, stored on site are covered to prevent dust pollution from site.
vii.	Wet jet shall be provided for grinding and stone cutting	Wet jet will be provided for grinding and stone cutting at appropriate stage of site development.
viii.	Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.	Water sprinkling by Anti-smog gun and tankers is being done regularly to suppress dust generation from site.
ix.	All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Management Rules 2016.	All construction debris is being stored at the site before they are properly disposed.
x.	The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.	DG sets complying CAQM guidelines is provided at the project site.
xi.	The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used The location of the DG set and exhaust pipe height shall be as per the provisions o the Central Pollution, Control Board (CPCB) norms.	DG sets complying CAQM guidelines is provided at the project site.
xii.	For indoor air quality the ventilation provisions as per National Building Code of India.	Ventilation system has been designed and will be installed as per NBC.
II.	Water quality monitoring and preservation	
i.	The natural: drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, or wetland and water bodies. Check dams, bio-swales, landscape, other- sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.	Natural drainage will be ensured for unrestricted flow of water. No construction will be allowed to obstruct the natural drainage of water system.
ii.	Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.	Noted.
iii.	Total fresh water shall not exceed the proposed requirement as provided in the project details. The	Fresh water requirement will not exceed as provided in the project

	per capita supply should adhere to NBC 2016 and CGWA notification dated 12.12.2018.	details and will adhere to NBC 2016 and CGWA notification.
iv.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.	Water meters will be installed for all source and supply mainlines (usage wise) to record the water consumption during operation phase, which will assist in monitoring the water balance. The water balance diagram has already been submitted along with application.
v.	A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.	Water supply assurance letter has been obtained and copy of the same is attached as Annexure 08 .
vi.	At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.	Same will be complied
vii.	Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.	Dual pipe plumbing will be used for supply of fresh water for drinking, cooking and bathing, other for supply of recycled water for flushing, landscape irrigation and for other purpose will be used.
viii.	Use of water saving devices, fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.	Use of water saving devices and fixtures for water conservation has been incorporated in this building design.
ix.	Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.	This is single stack system where all waste water will be routed to STP for treatment. Dual plumbing system will be provided in the form of separate recirculation lines for flushing and other uses of treated effluent.
x.	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.	Pre-mixed concrete, curing agents and other best practices are being used to reduce water demand.
xi.	The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain water harvesting recharge pts shall be provided for rain water harvesting after filtration as per CGWB guideline.	RWH system has been designed in accordance with the local by-laws, model building by-laws and CGWB guidelines. The RWH system will consist of RWH pits, oil and grease separator, sedimentation tank, filter media and recharge wells for recharging the ground water. 27 nos. of RWH pits will

		be provided.
xii.	A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built-up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.	The criteria have been considered in the calculation of numbers of Rain water harvesting pits. Ground water will not be used for the project. Ground water will not be withdrawn without approval from the Competent Authority.
xiii.	All recharge should be limited to shallow aquifer.	Noted.
xiv.	No ground water shall be used during construction phase of the project.	Ground water will not be used during the construction phase of the project.
xv.	Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.	Dewatering of ground water is not involved in the project.
xvi.	The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.	The water balance diagram has already been submitted along with application. Records of fresh water usage, water recycling and rainwater harvesting will be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports during operation phase of the project.
xvii.	Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC makeup water and gardening. As proposed no treated water shall be disposed in to municipal drain.	Sewage will be treated in the STP of 725 KLD capacity based on MBBR technology with tertiary treatment i.e. Ultra filtration. The treated effluent from STP will be recycled/re-used for flushing, gardening, car and street washing.
xviii.	No sewage or untreated effluent water would be discharged through storm water drains.	No sewage or untreated effluent water will be discharged through storm water drains.
xix.	Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant. (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.	All the waste water will be treated at onsite STP. Adequacy report will be submitted to the Ministry before the project is commissioned for operation. Treated water will be used for landscape, flushing etc. Excess treated water will be reused in nearby DLF Project for construction purpose.
xx.	Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures	Same will be complied in operational phase of the project.

	should be made to mitigate the odour problem from STP.	
xxi.	Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.	Sludge from onsite sewage will be collected and used as manure for landscape and horticulture development, surplus sludge will be disposed as per the Ministry of Urban Development, CPHEEO manual on sewerage and sewage treatment.
III.	Noise monitoring and prevention	
i.	Ambient noise levels shall conform to residential area/commercial area/industrial area/silence zone both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.	Noise level conform to residential standard both during day and night as per Noise pollution rule. Monitoring has been carried out in the month of March 2025 and the report is attached as an Annexure 06.
ii.	Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.	Same has been complied and monitoring report is attached as annexure 06.
iii.	Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.	Noise barriers for ground-run bays, ear plugs for operating personnel will be implemented as mitigation measures for noise impact due to ground sources during operation phase.
IV.	Energy Conservation measures	
i.	Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency as per ECBC act 2017 read with ECBC rule, 2018 shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC also is in no case should be less than 25% as prescribed.	Applicable ECBC-R norms and energy conservation measures will be followed as submitted in the EC application
ii.	Outdoor and common area lighting shall be LED.	LED will be used for common area lightening
iii.	Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specification.	Concept of passive solar design has been incorporated in the building design and same will be complied.
iv.	Energy conservation measures like installation of CFLs/ LED for the lighting the area outside The	Energy efficient luminaries like LEDs will be used within project site.

	building should be integral part of the project design and should be part of the project commissioning.	Used/damaged LEDs will be stored at designated places within site and handed over to authorized recycler for proper disposal as per norms.
v.	Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-law's requirement, whichever is higher.	Solar energy will be used as renewable energy source.
vi.	Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating provided to meet 20% of the hot water demand of the commercial building or as per the requirement of the local building whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.	Noted and same will be complied.
vii.	The PP will submit report indicating compliance of each parameter of ECBC requirement and submit quantification saving report for each component.	Applicable ECBC norms and energy conservation measures will be followed as submitted in the EC application.
V.	Waste Management	
i.	A certificate from the competent authority handling municipal solid wastes, indicating the exiting civic capacities of handling and their adequacy to cater to the M.S.W, generated from project shall be obtained.	Noted and same will be complied.
ii.	Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	Disposal of muck is being done taking the necessary precaution for general safety and health aspect.
iii.	Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.	Separate wet and dry waste bins have been provided for segregation of waste. During operation phase, bio-degradable waste will be composted in onsite OWC and manure will be used for landscaping and non-biodegradable waste will be handed over to authorized recycler for safe disposal/recycle.
iv.	Organic Waste Converter within the premises with a minimum capacity of 0.5 kg /person/day must be installed. Leaves to be put in earmarked pits for converting them into compost to be used as manure.	4 no. of organic waste converter will be provided at site at appropriate stage of site development.
v.	All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.	All non-biodegradable waste will be handed over to authorized recycler for disposal as per norms during operation

		phase.
vi.	Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.	As this is a building and construction project, the only hazardous waste generated is spent oil from DG which is being disposed of as per applicable rules and norms with necessary approval by SPCB.
vii.	Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.	Environment friendly materials like bricks, blocks and other construction materials are being used in construction work.
viii.	Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.	Fly-ash based cement and other building materials like bricks and blocks is being used in the construction of building. Ready mix concrete is being used in building construction.
ix.	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.	All construction debris is being stored at the site before they are properly disposed.
x.	Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.	E waste will be collected separately and provided to authorized recycler for safe disposal.
VI.	Green Cover	
i.	No tree can be felled/transplant unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the forest department. Plantation to be ensured species (cut) to species (planted).	41 nos. of trees have been cut at project site; permission from Forest department has already been obtained. Copy of the same is attached as Annexure 03 . Compensatory trees will be planted in appropriate stage of site development.
ii.	A minimum of 1 tree (5' tall) for every 80 sqm. of land should be planted and maintained. The existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and or invasive species should not be used for landscaping.	The criteria have been followed in calculating the nos. of tree to be planted at the project site. Plant species selected for the project are mostly indigenous type with less water demand.
iii.	Where the trees need to be cut with prior permission from the concerned local authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantation to be ensured species (cut) to species (planted). Area of	41 nos. of trees have been cut at project site; permission from Forest department has already been obtained. Copy of the same is attached as Annexure 03 . Compensatory trees will be planted in

	green belt development shall be provided as per the details provided in the project document.	appropriate stage of site development. Proper green belt has been designed and will be developed with peripheral shelter belt.
iv.	Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the Proposed vegetation on site.	Excavated soil has been stored at separate place and will be used for site leveling, back filling/filling raft and road construction. Top layer of soil has been stored and will be used for landscaping/horticulture development work.
VII.	Transport	
i.	A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria. a. Hierarchy of roads with proper segregation of vehicular and pedestrian traffic. b. Traffic calming measures. c. Proper design of entry and exit points. d. Parking norms as per local regulation.	The parking will be provided as per local regulations and bylaws, parking plan has already submitted with EC application. Entry and Exit points are properly designed.
ii.	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during nonpeak hours.	PUC certified vehicles are being used for construction work. All vehicles, equipment's and construction machines are conformed to applicable air and noise emission standard.
iii.	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habilitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the state urban development department and the P.W.D./competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.	A detailed traffic management has already been submitted with EC Application and will be implemented in later and sprit. The project is within the master plan of Gurugram.
VIII.	Human health issues	
i.	All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or	Adequate PPE (masks, hand gloves, safety hard hats, ear plugs, safety shoes, safety goggles, reflective jackets

	working in any area with dust pollution shall be provided with dust mask.	etc, as required) has been provided to labours at construction site
ii.	For indoor air quality the ventilation provisions as per National Building Code of India.	The ventilation system has been designed and will be provided as per NBC norms.
iii.	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.	Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan has already been submitted along with application.
iv.	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	All the necessary and requisite facility is being provided to the construction labours.
v.	Occupational health surveillance of the workers shall be done on a regular basis.	Regular health checkup of the construction workers is ensured.
vi.	A First Aid Room shall be provided in the project both during construction and operations of the project.	First Aid Room is available at site during construction phase and same will be provided during operation phase.
IX.	Corporate Environment Responsibility	
i.	The project proponent shall comply with the provisions of CER, as applicable.	Applicability of CER policy has been removed by the MoEF&CC vide office memorandum file No.- 22-65/2017-IA-III dated 30.09.2020. CER is part of EMP.
ii.	The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental Policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/ violation of the environmental / forest / wildlife norms / conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.	Environment Policy is attached as Annexure 11 .
iii.	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.	Noted.
iv.	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The	Same has already been submitted at the time of EC application.

	year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted to any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.	
X	Miscellaneous	
i.	The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.	Advertisement of Environment clearance has been done in two local newspapers, copy of the same is attached as Annexure 10 .
ii.	The copies of the environment clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.	Same has already been complied.
iii.	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis	Same has already been complied.
iv.	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.	Submission of six-monthly compliance reports is being done regularly on time to time.
v.	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.	Noted.
vi.	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.	Same will be complied.
vii.	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	Noted.
viii.	The project proponent shall abide by all the commitments and recommendations made in the Form I-A, conceptual plan also that during their	Environmental safeguards contained in the application form 1, Form 1A and in environmental clearance order are

	presentation to the Expert Appraisal Committee.	being implemented in true spirit.
ix.	No further expansion or modifications in the plan shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Haryana. The project proponent shall seek fresh environment clearance under EIA notification 2006, if at any stage there is a change of area of this project.	Noted.
x.	Any change in planning of approved plan will lead to Environment Clearance void-ab-initio and PP will have to seek fresh environmental clearance.	Noted.
xi.	The PP should give unambiguous affidavit giving land promoters in accordance with your ownership and possession of land legal the case referred for environment clearance to SEIAA.	Noted
xii.	Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.	Noted.
xiii.	The Ministry/SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.	Noted.
xiv.	The Ministry/SEIAA reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.	Noted.
xv.	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the Regional Office by furnishing the requisite data / information/monitoring reports.	Noted
xvi.	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Trans boundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.	Noted.

xvii.	The validity of this environment clearance letter is valid up to 10 years from the date of issuance of EC letter as per MoEF & CC, GoI notification No. S.O. 1807 (E) dated 12/04/2022. The environment clearance conditions applicable till life space project will continue to apply. In case of violation the action would be taken as per the laid down law of land. Compliance report should be sent to this office till life of the project.	Noted
xviii.	If project is not completed within the validity period then the project proponent shall submit the application for extension of validity within validity period of Environment Clearance i.e. 10 years. The Project Proponent should intimate to the Authority as well as to the quarter concerned in case of any change in the present communication address.	Noted.

Chapter 3**DETAILS OF ENVIRONMENTAL MONITORING****3.1 AMBIENT AIR QUALITY MONITORING****3.1.1 Ambient Air Quality Monitoring Stations**

Ambient air quality monitoring has been carried out at one location, being near main gate to assess the ambient air quality of Project Site in March, 2025. This will enable to have an analytical understanding about air quality and the changes in the air environment in the study area with respect to the condition prevailing. The location of the ambient air quality monitoring station is given in **Table 3.1**.

Table 3.1 Details of Ambient Air Quality Monitoring Stations

S. No.	Location Code	Location Name/ Description	Environmental Setting
1.	AAQ-1	Project Site	Residential

3.1.2 Ambient Air Quality Monitoring Methodology

Monitoring was conducted in respect of the following parameters:

- Particulate Matter 2.5 (PM_{2.5})
- Particulate Matter 10 (PM₁₀)
- Sulphur Dioxide (SO₂)
- Oxide of Nitrogen (NO₂)
- Carbon Monoxide (CO)
- Ozone (as O₃)
- Lead (Pb)
- Ammonia (NH₃)
- Benzene (C₆H₆)
- Benzo (a) Pyrene
- Arsenic (As)
- Nickel (Ni)

The Ambient air sampling was carried out continuously for 24 hours for PM_{2.5}, PM₁₀, SO₂, NO₂, PB, NH₃, C₆H₆, AS and Benzo(a)Pyrene per day and CO was sampled for 1 hour. The while Ozone was sampled for 8 hours as per National Ambient Air Quality Standards.

The air samples were analyzed as per standard methods specified by Central Pollution Control Board (CPCB) and IS: 5182. The techniques used for ambient air quality monitoring and minimum detectable levels are given in **Table 3.2**.

Fine Particulate Sampler APM 550 instruments have been used for monitoring Particulate Matter 2.5 (PM_{2.5} i.e. <2.5 microns), and Respirable Dust Sampler APM 450 was used for sampling Respirable fraction (<10 microns), gaseous pollutants like SO₂, and NO₂. Bladder and Aspirator bags were used for collection Carbon monoxide samples. Non-Dispersive Infrared Absorption Method (NDIR) techniques have been used for the estimation of CO. Gas Chromatography techniques have been used for the estimation of Benzo (a)Pyrene and Benzene.

Table 3.2: Techniques used for Ambient Air Quality Monitoring

S. No.	Parameter	Technique	Technical Protocol
1	Particulate Matter 2.5	Gravimetric Method	IS 5182 P- 24
2	Particulate Matter 10	Gravimetric Method	IS 5182 P- 23
3	Sulphur dioxide (SO ₂)	Modified West and Gaeke	IS 5182 P-02
4	Oxides of Nitrogen	Jacob & Hochheiser Method	IS 5182 P-06
5	Carbon Monoxide	Non-Dispersive Infrared Absorption Method (NDIR)	IS 5182 P- 10
6	Ozone (as O ₃)	Chemical Method (Colorimetric)	IS:5182 P -9
7	Lead (Pb)	Atomic Absorption Direct Aspiration Method	IS:5182 P-22
8	Ammonia (NH ₃)	Indophenol Method (Colorimetric)	IS:5182 P-25
9	Benzene (C ₆ H ₆)	Gas Chromatography	IS:5182 P-11
10	Benzo alpha Pyrene	Gas Chromatography	IRDH/SOP/AAQ/12
11	Arsenic (As)	Atomic Absorption through Hydride Generator	IRDH/SOP/AAQM/06
12	Nickel (Ni)	Atomic Absorption direct Aspiration method	IS:5182 P-26

3.1.3 Ambient Air Quality Monitoring Results

The detailed on-site monitoring results of PM_{2.5}, PM₁₀, SO₂, NO₂, CO, O₃, Pb, NH₃, C₆H₆, AS, Ni, and Benzo (a)Pyrene are presented in **Table 3.3**.

Table 3.3: Ambient Air Quality Monitoring Results

S. No	Parameter	Method	Results	Unit	Requirement (CPCB limits)*
1.	Particulate Matter as PM _{2.5}	IRDH/SOP/AAQM/01	83.6	µg/m ³	60
2.	Particulate Matter as PM ₁₀	IS 5182 P- 23 (2006)	182.0	µg/m ³	100
3.	Sulphur dioxide as SO ₂	IS 5182 P-02 (2001)	8.24	µg/m ³	80
4.	Nitrogen dioxide as NO ₂	IS 5182 P-06 (2006)	27.6	µg/m ³	80
5.	Carbon monoxide as CO	IRDH/SOP/AAQM/08	1.02	mg/m ³	4.0
6.	Ozone (as O ₃)	IS:5182(Part-9)	11.5	µg/m ³	100 (8 Hourly)
7.	Lead (Pb)	IS:5182(Part-22)	<0.1	µg/ m ³	1
8.	Ammonia (NH ₃)	SOP:IRDH/SOPAAQM/09	22.2	µg/ m ³	400
9.	Benzene (C ₆ H ₆)	IS:5182(Part-11)	<1.0	µg/ m ³	5
10.	BenzoPyrene	IS:5182(Part-12)	<0.1	ng/ m ³	1
11.	Arsenic (As)	SOP: IRDH/SOPAAQM/06	<1.0	ng/ m ³	6
12.	Nickel (Ni)	SOP: IRDH/SOPAAQM/07	<1.0	ng/ m ³	20

3.1.4 Discussion on Ambient Air Quality in the Study Area

The levels of PM₁₀ and PM_{2.5} near main gate of project site are found above the permissible limit of 100 µg/m³ and 60 µg/m³ respectively (for residential, rural and other areas as stipulated in the National Ambient Air Quality Standards). Other parameters were observed within the corresponding stipulated limits at monitoring location.

3.2 AMBIENT NOISE MONITORING

3.1.1 Ambient Noise Monitoring Locations

The main objective of noise monitoring in the study area is to assess the present ambient noise levels in project site due to various construction allied activities around the site and increased vehicular movement. A preliminary reconnaissance survey has been undertaken to identify the major noise generating sources in the area. Ambient noise monitoring has been conducted at the boundary of the project site in the month of March, 2025 as given in **Table 3.4**.

Table 3.4 Details of Ambient Noise Monitoring Stations

S. No.	Locn. Code	Location Name/ Description	Present Land use
1.	ANQ1	Project Site	Residential

3.2.2 Methodology of Noise Monitoring

Noise levels were measured using integrated sound level meter manufactured by Envirotech Instrument Pvt. Ltd. The integrating sound level meter is an integrating/ logging type with frequency range of 'A' type as per IS 15675 (Part 1) 2005. This instrument is capable of measuring the Sound Pressure Level (SPL), Leq and SEL on digital display.

Noise level monitoring was carried out continuously for 24-hours with one hour interval starting at 10:00 hrs to 09:00 hrs next day. The noise levels were monitored on working days only. During each hour Leq were directly computed by the instrument based on the sound pressure levels. Lday (Ld), Lnight (Ln) and Ldn values were computed using corresponding hourly Leq. Monitoring was carried out at 'A' response and fast mode.

3.2.3 Ambient Noise Monitoring Results

The ambient noise monitoring result is summarized in **Table 3.5**.

Table 3.5 Ambient Noise Monitoring Results

Sr. No.	Test Locations	Day Time - dB(A)		Night Time - dB(A)	
		Results	Limits as per CPCB guideline	Results	Limits as per CPCB guideline
ANQ-1	Near Main Gate	53.7	55	43.8	45

3.2.4 Discussion on Ambient Noise Levels in the Study Area

Day Time Noise Levels (L_{day}):

The day time noise level was found within the limit prescribed for Residential area i.e. 55 db(A).

Night Time Noise Levels (L_{night}):

The night time noise level was found within the limit prescribed for Residential area i.e. 45 dB (A).

3.3 GROUNDWATER QUALITY MONITORING

Ground water extraction is not involved in the project. Treated water from HSVP is being used construction purposes.

3.4 SOIL MONITORING

3.4.1 Soil Monitoring Locations

The objective of the soil monitoring is to identify the impacts of ongoing project activities on soil Quality and also predict impacts, which have arisen due to execution of various constructions Allied activities. Accordingly, a study of assessment of the soil quality has been carried out.

To assess impacts of ongoing project activities on the soil in the area, the physico-chemical characteristics of soil were examined by obtaining soil samples from selected point and analysis of the same. One sample of soil was collected from the project site in the month of March, 2025 for studying soil characteristics, the location of which is listed in **Table 3.6**.

Table 3.6 Details of Soil Quality Monitoring Location

S. No.	Locn. Code	Location Name/ Description
1.	S1	Project Area

3.4.2 Methodology of Soil Monitoring

The sampling has been done in line with IS: 2720 & Methods of Soil Analysis, Part-1, 2nd edition, 1986 of American Society for Agronomy and Soil Science Society of America. The homogenized sample was analyzed for physical and chemical characteristics (physical, chemical and heavy metal concentrations).

The sample has been analyzed as per the established scientific methods for physico-chemical parameters. The heavy metals have been analyzed by using Atomic Absorption Spectrophotometer and Inductive Coupled Plasma Analyzer.

3.4.3 Soil Monitoring Results

The physico-chemical characteristics of the soil, as obtained from the analysis of the soil sample, are presented in **Table 3.7**.

Table 3.7 Physico-Chemical Characteristics of Soil in the Study Area

S. No.	Parameter	Test Method	Results	Unit
1.	pH	IS 2720 P-26 (1987)	7.97	--
2.	Conductivity	IS 14767 (RA 2016)	522.0	μS/cm
3.	Moisture	IS 2720 P-25 (1972)	8.25	% by mass
4.	Water Holding Capacity	IRDH/SOP-SL/07	19.12	%
5.	Specific Gravity	IS 2720 P-3 (1980)	1.94	-
6.	Bulk density	IRDH/SOP-SL/06	1.37	gm/cc
7.	Chloride	IRDH/SOP-SL/14	219.0	mg/kg
8.	Calcium	IRDH/SOP-SL/17	1633.0	mg/kg
9.	Sodium	IRDH/SOP-SL/11	165.0	mg/kg

10.	Potassium	IRDH/SOP-SL/12	40.6	mg/kg
11.	Magnesium	IRDH/SOP-SL/16	172.0	mg/kg
12.	Organic matter	IS 2720 P-22 (1972)	0.52	% by mass
13.	Cation Exchange Capacity(CEC)	IRDH/SOP-SL/09	13.6	meq/100gm
14.	Available nitrogen	IS 14684	56.4	mg/kg
15.	Available Phosphorous	IRDH/SOP-SL/10	7.18	mg/kg
16.	Iron as Fe	IRDH/SOP-SL/22	1225.0	mg/kg
17.	Copper as Cu	IRDH/SOP-SL/21	14.2	mg/kg
18.	Zinc as Zn	IRDH/SOP-SL/20	26.04	mg/kg
19.	Texture	IRDH/SOP-SL/08		% by mass
	Sand		60.7	
	Clay		25.3	
	Silt		14.0	
20.	Sodium Absorption Ratio(SAR)	IRDH/SOP-SL/13	1.03	By calculation

3.4.4 Discussion on Soil Characteristics in the Study Area

Nothing is being added to the soil due to construction activity therefore the soil quality in the project area is not being affected by the project activities.

ANNEXURE I

Government of India
Ministry of Environment, Forest and Climate Change
(Issued by the State Environment Impact Assessment
Authority(SEIAA), Haryana)

To,

The Authorized Signatory

M/S DLF LIMITED

DLF Gateway Tower, R Block DLF City Phase III, Gurugram -122002

Subject: Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/HR/MIS/63304/2021 dated 29 Nov 2021. The particulars of the environmental clearance granted to the project are as below.

- | | |
|--|---|
| 1. EC Identification No. | EC22B039HR127912 |
| 2. File No. | SEIAA/HR/2021/409 |
| 3. Project Type | New |
| 4. Category | B1 |
| 5. Project/Activity including Schedule No. | 8(b) Townships and Area Development projects. |
| 6. Name of Project | Affordable Plotted Housing Colony under Deen Dayal Jan Awas Yojana (DDJAY) over land area measuring 26.91875 acres in Sector 93, Village Hayatpur, Sub Tehsil Hasaru, District Gurugram |
| 7. Name of Company/Organization | M/S DLF LIMITED |
| 8. Location of Project | Haryana |
| 9. TOR Date | 26 Oct 2021 |

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 28/04/2022

(e-signed)
S. Narayanan, IFS
Member Secretary
SEIAA - (Haryana)

Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.

This is a computer generated cover page.

STATE ENVIRONMENT IMPACT ASSESSMENT AUTHORITY HARYANA
Bay No. 55-58, PrayatanBhawan, Sector-2, PANCHKULA.

Tel: 0172-2565232, 4043956

E-mail Id: seiaa-21.env@hry.gov.in

Project: EC for project “Affordable Plotted Housing Colony under Deen Dayal Jan Awas Yojana (DDJAY)” over land area measuring 26.91875 acres in Sector 93, Village Hayatpur, Sub Tehsil Hasaru, District Gurugram, Haryana by M/S DLF LIMITED.

This has reference to your proposal No. SIA/HR/MIS/63304/2021 dated 07.12.2021 and subsequent **letters dated 28.05.2021** for seeking prior Environmental Clearance (EC) for the above project under the EIA Notification, 2006 along with submission of required scrutiny fee amounting to Rs. 2,00,000 vide DD No. 519899 dated 27.10.2021 in compliance of Haryana Government, Environment & Climate Change Notification No. DE&CCH/3060 dated 14th October, 2021. The proposal has been appraised as per prescribed procedure in the light of provisions under the EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application viz., Form-1, Form1-A, Conceptual Plan and additional clarifications furnished in response to the observations of the State Expert Appraisal Committee (SEAC) constituted by MoEF & CC, GoI vide their Notification dated 21.02.2022, in its meeting held on 08.04.2022 awarded “Gold” rating / grading to the Project.

2. It is inter-alia, noted that the project involves in the “Affordable Plotted Housing Colony under Deen Dayal Jan Awas Yojana (DDJAY)” over land area measuring 26.91875 acres in Sector 93, Village Hayatpur, Sub Tehsil Hasaru, District Gurugram, Haryana.

3. The details of the Project as given below:

Table1: Basic Details

Sr. No.	Particulars	
1.	Online Proposal Number	SIA/HR/MIS/63304/2021
2.	Latitude	28°25'1.05"N
3.	Longitude	76°55'53.56"E
4.	Plot Area	108,936.316 m ²
5.	Net Plot Area	108,831.098 m ²
6.	Proposed Ground Coverage	36154.09 m ² (65.99 % of residential area) 2,606 m ² (59.74 % of commercial area)
7.	Proposed FAR	Residential- 1,30,900.800 m ² Commercial- 7,636 m ²
8.	Non FAR Area	133,051.459 m ²
9.	Total Built Up area	2,71,588.259 m ²
10.	Total Green Area with %	15,251.08 m ² (14% of Net plot area)
11.	Rain Water Harvesting Pits (with size)	27 No. (5 m x 3.5 m x 3.72 m)
12.	STP Capacity	725 KLD

13.	Total Parking		1621 ECS
14.	Organic Waste Converter		4 no.
15.	Maximum Height of the Building (m)		15 m
16.	Power Requirement		7,100 KW
17.	Power Backup		3 x 2000 kVA
18.	Total Water Requirement		757 KLD
19.	Domestic Water Requirement		455 KLD
20.	Fresh Water Requirement		455 KLD
21.	Treated Water		495 KLD
22.	Waste Water Generated		550 KLD
23.	Solid Waste Generated		3,616 kg/day
24.	Biodegradable Waste		2,186 kg/day
25.	Number of Towers		-
26.	Dwelling Units/ EWS		No. of Residential Plots- 367 no. Commercial- 1 No. Community- 1 No. will be handover to authorities.
27.	Basement		4 basement in commercial
28.	Community Center		1 No.
29.	Stories		B+S+4 (For Residential Plot Development)
30.	R+U Value of Material used (Glass)		R Value: 0.176 W/m ² .K U Value: 5.67 W/m ² .K
31.	Total Cost of the project:	i) Land Cost	Rs. 102.26 Crore
		ii) Construction Cost	Rs 560.51 Crore
32.	CER		15 Lakhs
33.	EMP Budget		Capital Cost: Rs 329 Lakhs Recurring Cost: 21.5 Lakh/year
34.	Incremental Load in respect of:	i) PM 2.5	Onsite NW - 0.103 µg/m ³
		ii) PM 10	Onsite NW - 0.249 µg/m ³
		iii) SO ₂	Onsite NW - 1.93 µg/m ³
		iv) NO ₂	Onsite NW - 0.999 µg/m ³
		v) CO	Onsite NW - 0.001 µg/m ³
35.	Construction Phase:	i) Power Back-up	2 x 125 kVA
		ii) Water Requirement & Source	Requirement: 14 KLD Source : STP treated Water
		iii) STP (Modular)	
		iv) Anti-Smoke Gun	

Table 2:EMP BUDGET

Capital Cost		
S. No.	Description	Capital Cost(in Lakhs)
1	Landscaping	65
2	Water Management (725 KLD STP)	90
3	Rain water harvesting(No. 27)	54
4	Air Management (3 x 2000 kVA capacity DG Stack & Acoustic Treatment)	30
5	Solid Waste Management	50
6	Social Activities	15
7	Solar Panel	20
8	Miscellaneous	5
	Total	Rs 329 Lakhs

Tangible cost breakup of Social Activities:

S No.	Description of Social Cost	Capital Cost(in Lakhs)
a	Miyawaki Plantation	7.5
b	Infrastructure development at Govt. Primary School sector-93, Hayatpur	7.5
	Total	15

Recurring Cost

Recurring Cost		
S. No.	Description	Recurring Cost (In Lakhs/year)
1	Landscaping	6.0
2	Water Management (STP)	4.0
3	Rain water harvesting	4.5
4	Environment Monitoring	2.0
5	Solid Waste Management	3.0
6	Miscellaneous	2.0
	Total	Rs 21.5 Lakh/year

4. The State Expert Appraisal Committee, Haryana after due consideration of the relevant documents submitted by the project proponent and additional clarification furnished in response to its observations, have recommended the grant of environmental clearance for the project mentioned above, subject to compliance with the stipulated conditions. Accordingly, the State Environment Impact Assessment Authority in its **139th meeting held on 18.04.2022** decided to agree with the recommendations of SEAC to accord necessary environmental clearance for the

project under **Category 8(a)** of EIA Notification 2006 subject to the **strict compliance with the following stipulations depicted below:-**

A. Specific conditions:-

1. Sewage shall be treated in the STP based on latest Technology with tertiary treatment i.e. Ultra Filtration to achieve standards ordered by NGT. The Treated effluent from STP shall be recycled /reused for flushing. DG cooling and Gardening. The dimension of each component of STP should be properly designed as per Norms.
2. The PP should provide separate services across revenue rasta or carry out construction after approval of Competent Authority.
3. The PP shall spent Rs.5Lakhs on various wildlife conservation activities like artificial nests on the trees, digging of ponds and construction of feeding platforms through Environment Management Plan
4. The PP shall handover the 10% of the area for community development to the authorities as per approval.
5. The PP shall also develop the Miyawaki Forest as proposed in the EMP with the capital cost of 7.5 lakhs in the area of 1200 sqm. outside the project area and maintain the same. The Miyawaki forest shall be developed under the guidance of MD Forest corporation Haryana
6. The Project Proponent would devise a monitoring plan to the satisfaction of the State Pollution Control Board so as to continuously monitor the treated waste water being used for flushing in terms of faecal coli forms and other pathogenic bacteria.
7. The PP shall ensure that total 2% of the cost of project shall be spent on EMP Budget. However, the amount and component shown in EMP table above shall also be included for the purpose of 2% amount. The EMP cost on Socio Economic activities shall be used before the commencement of the project & EMP recurring inside the project shall be implemented throughout the operation of the project. The PP shall establish Environment monitoring cell as per documents submitted.
8. The PP shall not carry out any construct above and below revenue rasta if passing through the project and ensure that permission of the competent authority shall be obtained before carry out any construction above or below the revnuerasta. The PP shall put notice board on the revenue rasta for the passer byes.
9. The project proponent shall upload the status of compliance of the basic details (given in above tables), stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
10. The Project Proponents would commission a third party study on the implementation of conditions related to quality and quantity of recycle and reuse of treated water, efficiency of treatment systems, quality of treated water being supplied for flushing (specially the bacterial counts), comparative bacteriological studies from toilet seats using recycled treated waters and fresh waters for flushing, and quality of water being supplied through spray faucets attached to toilet seats.
11. Separate wet and dry bins must be provided in each unit and at ground level for facilitating segregation of waste. Solid Waste shall be segregated into wet garbage and inert materials. Wet Garbage shall be composted in Organic waste convertor. Adequate area shall be provided for solid waste management within the premises which will include area for segregation, composting. The Inert waste from the project will be sent to solid waste dumping site through authorized vender.
12. Traffic management plan as submitted shall be implemented in letter and spirit. Apart, a detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is marinated and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habilitation being carried out or purpose to be carried out by the project or other agencies in this 05kms radius of the site in different scenarios of space and time

13. No tree cutting has been proposed in the instant project. A minimum of 1 tree for every 80sqm of land should be planted and maintained. The Existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping. As proposed 15,251.08 m² (14% of Net plot area) of total plot area shall be provided for Green Area development for whole project, excluding plot areas.
14. The Project Proponent shall obtain all necessary clearance/permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
15. Consent to establish/operate for the project shall be obtained from the State Pollution Control Board as required under the Air (Prevention and Control of pollution) Act, 1981 and the Water (Prevention and control of pollution) Act, 1974.
16. The Approval of the Competent Authority shall be obtained for structural safety of building code due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightening etc.
17. The PP shall obtain the Fire NOC from the Competent Authority before taking the occupation of the building.
18. The PP shall install the Eco Friendly Green Transformer based on ester oil to reduce the carbon footprint. The PP shall shift to gas based generator set when the gas is available. The PP shall install APCM for the DG set. The PP shall reduce the So₂ load by 30% if HSD is used. The DG sets will be operated for maximum 04 hours during power failure through Executing Agency
19. The PP shall not give occupation or possession before the water supply and sewage connection permitted by the competent authority.
20. The PP shall not give occupation or possession before the electricity connection permitted by the competent Authority.
21. The PP shall obtain the permission regarding withdrawal of ground water, if any from HWRA/CGWA before the start of the project and also obtained the CTO from HSPCB after the approval from HWRA/CGWA.
22. The PP shall carry out the quarterly awareness programs for the stakeholders of the project.
23. 27 Rain water harvesting recharge pits shall be provided for ground water recharging as per the CGWB norms.
24. The PP shall install Digital water level recorder for monitoring the water recharge and carry out quarterly maintenance and cleaning of 27 RWH pits.
25. The PP shall provide the Anti smog gun mounted on vehicle in the project for suppression of dust during construction & operational phase and shall use the treated water, if feasible.
26. The PP shall take all preventive measures including water sprinkles to control dust during construction and operational phase.
27. Any change in stipulations of EC will lead to Environment Clearance void-ab-initio and PP will have to seek fresh Environment Clearance.
28. The excess treated water shall be reused in nearby DLF Projects for construction purpose
29. The PP shall provide the separate services without crossing the revenue rasta in three pockets i.e. zone A,B and C
30. The PP shall install Retrofit emission controlling devices for DG sets approved by CPCB to further reduce the emission by intervening the exhaust. The emission level shall comply with the CPCB guidelines or norms
31. The PP shall install the DG set of 4000KVA capacity and reduce the power backup undertaking
32. The PP shall install the DG set based on multi fuel injection system and capacity and will shift DG set on the gas as and when available.
33. Before starting of the construction, PP shall obtain requisite sewer connection/permission from the competent Authority

B. Statutory Compliance:

- [1] The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority for ground coverage, FAR and should be in accordance with zoning plan approved by Competent Authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
- [2] The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc as per National Building Code including protection measures from lightening etc.
- [3] The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.
- [4] The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
- [5] The project proponent shall obtain Consent to Establish/Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the Haryana State Pollution Control Board.
- [6] The project proponent shall obtain the necessary permission for drawl of ground water /surface water required for the project from the competent authority.
- [7] A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
- [8] All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.
- [9] The provisions of the Solid Waste (Management) Rules, 2016, e-Waste (Management) Rules, 2016, the Plastics Waste (Management) Rules, 2016 and Batteries waste (Management Handling Rules 2001 as amended in 2020) shall be followed.
- [10] The project proponent shall follow the ECBC Act/ECBC-Rules prescribed by Bureau of Energy Efficiency, Ministry of Power strictly in addition of bylaws of the State Government.

I Air Quality Monitoring and Preservation

- i. Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.
- ii. A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.
- iii. The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5) covering upwind and downwind directions during the construction period.
- iv. Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of ultra lowsulphur diesel. The location of the DG sets may be decided with in consultation with State Pollution Control Board
- v. Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand,

- cement, murrum and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.
- vi. Sand, murrum, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.
 - vii. Wet jet shall be provided for grinding and stone cutting.
 - viii. Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.
 - ix. All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Rules 2016.
 - x. The diesel generator sets to be used during construction phase shall be ultra lowsulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.
 - xi. The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Ultra low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.
 - xii. For indoor air quality the ventilation provisions as per National Building Code of India.

II Water Quality Monitoring and Preservation

- i. The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water.
- ii. Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.
- iii. Total fresh water use shall not exceed the proposed requirement as provided in the project details. The per capita supply should adhere to NBC 2016 and CGWA Notification dated 12.12.2018.
- iv. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
- v. A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed the quantity of water allotted to the project under consideration and the balance water available. This should be specified separately for ground water and surface water sources, ensuring that there is no impact on other users.
- vi. At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.
- vii. Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.
- viii. Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.
- ix. Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.
- x. Water demand during construction should be reduced by use of pre-mixed concrete,

- curing agents and other best practices referred.
- xi. The local bye-law provisions on rain water harvesting should be followed. If local byelaw provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. Rain Water Harvesting pits shall be provided for ground water recharging as per the CGWB norms.
- xii. A rain water harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of built up area and storage capacity of minimum one day of total fresh water requirement shall be provided. In areas where ground water recharge is not feasible, the rain water should be harvested and stored for reuse. The ground water shall not be withdrawn without approval from the Competent Authority.
- xiii. All recharge should be limited to shallow aquifer.
- xiv. No ground water shall be used during construction phase of the project.
- xv. Any ground water dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any ground water abstraction or dewatering.
- xvi. The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
- xvii. Sewage shall be treated in the STP with tertiary treatment. The treated effluent from STP shall be recycled/re-used for flushing, AC make up water and gardening. As proposed, no treated water shall be disposed in to municipal drain.
- xviii. No sewage or untreated effluent water would be discharged through storm water drains.
- xix. Onsite sewage treatment of capacity of treating 100% waste water to be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Treated waste water shall be reused on site for landscape, flushing, cooling tower, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by Ministry of Environment, Forest and Climate Change. Natural treatment systems shall be promoted.
- xx. Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.
- xxi. Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

III Noise Monitoring and Prevention

- i. Ambient noise levels shall conform to residential area/commercial area both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.
- ii. Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
- iii. Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

IV Energy Conservation Measures

- i. Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency as per ECBC Act, 2017 read with ECBC Rules, 2018 shall be

- ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC also which is in no case should be less than 25% as prescribed.
- ii. Outdoor and common area lighting shall be LED.
 - iii. Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof R & U-values shall be as per ECBC specifications.
 - iv. Energy conservation measures like installation of CFLs/ LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.
 - v. Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.
 - vi. Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.
 - vii. The PP will submit report indicating compliance of each parameter of ECBC requirement and submit quantification saving report for each component.

V Waste Management

- i. A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.
- ii. Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
- iii. Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.
- iv. Organic Waste Converter within the premises with a minimum capacity of 0.5 kg /person/day must be installed. Leaves to be put in earmarked pits for converting them into compost to be used as manure.
- v. All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.
- vi. Any hazardous waste generated during construction phase, shall be disposed of as per applicable rules and norms with necessary approvals of the State Pollution Control Board.
- vii. Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.
- viii. Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.
- ix. Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.
- x. Used CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.

VI Green Cover

- i. No tree can be felled/transplant unless exigencies demand. Where absolutely

necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department. Plantations to be ensured species (cut) to species (planted).

- ii. A minimum of 1 tree (5' tall) for every 80 sqm of land should be planted and maintained. The existing trees will be counted for this purpose. The landscape planning should include plantation of native species. The species with heavy foliage, broad leaves and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping.
- iii. Where the trees need to be cut with prior permission from the concerned local Authority, compensatory plantation in the ratio of 1:10 (i.e. planting of 10 trees for every 1 tree that is cut) shall be done and maintained. Plantations to be ensured species (cut) to species (planted). Area for green belt development shall be provided as per the details provided in the project document.
- iv. Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.

VII Transport

- i. A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.
 - a) Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
 - b) Traffic calming measures.
 - c) Proper design of entry and exit points.
 - d) Parking norms as per local regulation.
- ii. Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.
- iii. A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

VIII Human Health Issues

- i. All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.
- ii. For indoor air quality the ventilation provisions as per National Building Code of India.
- iii. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
- iv. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- v. Occupational health surveillance of the workers shall be done on a regular basis.
- vi. A First Aid Room shall be provided in the project both during construction and operations of the project.

IX Corporate Environment Responsibility

- i. The project proponent shall comply with the provisions of CER, as applicable.
- ii. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions. The company shall have defined system of reporting infringements/ deviation/ violation of the environmental/ forest/ wildlife norms/ conditions and/ or shareholders/ stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
- iii. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly to the head of the organization.
- iv. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.

X Miscellaneous

- i. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEFCC/SEIAA website where it is displayed.
- ii. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
- iii. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.
- iv. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
- v. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.

- vi. The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
- vii. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
- viii. The project proponent shall abide by all the commitments and recommendations made in the form-IA, Conceptual Plan and also that during their presentation to the Expert Appraisal Committee.
- ix. No further expansion or modifications in the plan shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC)/SEIAA, Haryana. The project proponent shall seek fresh environmental clearance under EIA notification 2006 if at any stage there is change of area of this project.
- x. Any change in planning of the approved plan will lead to Environment Clearance void-ab-initio and PP will have to seek fresh Environment Clearance
- xi. The PP should give unambiguous affidavit giving land promoters in accordance with your ownership and possession of land legal the case referred for Environment Clearance to SEIAA.
- xii. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- xiii. The Ministry/SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
- xiv. The Ministry/SEIAA reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
- xv. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
- xvi. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.
- xvii. The validity of this environment clearance letter is valid up to 10 years from the date of issuance of EC letter as per MoEF & CC, GoI notification No. S.O. 1807 (E) dated

12.04.2022. The environment clearance conditions applicable till life space project will continue to apply. In case of violation the action would be taken as per the laid down law of land. Compliance report should be sent to this office till life of the project.

- xviii. If project is not completed within the validity period then the project proponent shall submit the application for extension of validity within the validity period of Environment Clearance i.e. 10 years.

The Project Proponent should intimate to the Authority as well as to the quarter concerned in case of any change in the present communication address.

File Ref. VI/DDJAY/93/8

March 15, 2022

The Commissioner,
Municipal Corporation,
Manesar

Subject: Laying of services through the Revenue Rastas within the Affordable Plotted Colony under DDJAY area measuring 26.91875 acres, in Sector 93, Gurugram.

Sir,

1. Kindly refer to Director, Town & Country Planning, Haryana, Endst no. LC-4223/Asstt. (MS)/2021/29053 dated 16.11.2021, wherein licence no. 94 of 2021 dated 12.11.2021 has been granted for setting up of Affordable Plotted Colony under Deen Dayal Jan Awas Yojana over area measuring 26.91875 acres in Sector 93, Gurugram.
2. In pursuance of the licence granted, we are carrying out development works in the colony. The colony is consisting of 2 nos. revenue rastas. Approved layout plan showing the revenue rastas marked as "A to B, C to D & E to G" is enclosed herewith for your perusal and ready reference as Annexure "A".

We are required to lay the utility services through these two revenue rastas.

3. In view of the above, it is requested that the necessary approval may kindly be accorded to utilize the revenue rasta for laying the utility services. We further undertake that, roads will be restored back to original condition after laying of services.

Thanking you,

Yours faithfully,
For DLF Limited,

(DEEPAK BHANDARI)

Housing under Deen Dayal Jan awas Yojana (DDJAY) over 26.91875 acers in sector 93,
Gurugram is here by granted consent as per following specification/Terms and conditions.

Consent Under	AIR/WATER
Period of consent	17/06/2022 - 27/04/2032
Industry Type	Building and Construction projects having waste water generation more than 100 KLD in respective of their built-up area
Category	RED
Investment(In Lakh)	39655.0
Total Land Area (Sq. meter)	108936.31
Total Builtup Area (Sq. meter)	271588.25
Quantity of effluent	
1. Trade	0.0 KL/Day
2. Domestic	550.0 KL/Day
Number of outlets	1.0
Mode of discharge	
1. Domestic	Recycling/Reuse
2. Trade	0
Permissible Domestic Effluent Parameters	
1. BOD	30 mg/l

2. COD	250 mg/l
3. TSS	100 mg/l
4. Oil & Grease	10 mg/l
5. pH	5.5-9.0
Permissible Trade Effluent Parameters	
1. NA	mg/l
Number of stacks	1
Height of stack	
1. Attached to D.G.Set above ground level	30 meter
Permissible Emission parameters	
1. NA	
Capacity of boiler	
1. N.A.	Ton/hr
Type of Furnace	
1. N.A.	
Type of Fuel	
1. Diesel	0.2 KL/day

HARYANA STATE

*Regional Officer, Gurgaon South
Haryana State Pollution Control Board.*

Terms and conditions

1. The industry has declared that the quantity of effluent shall be 550 KL/Day i.e 0KL/Day for Trade Effluent, 0 KL/Day for Cooling, 550 KL/Day for Domestic and the same should not exceed .
2. The above 'Consent to Establish' is valid for 60 months from the date of its issue to be extended for another one year at the discretion of the Board or till the time the unit starts its trial production whichever is earlier. The unit will have to set up the plant and obtain consent during this period.
3. The officer/official of the Board shall have the right to access and inspection of the industry in connection with the various processes and the treatment facilities being provided simultaneously with the construction of building/machinery. The effluent should conform the effluent standards as applicable
4. That necessary arrangement shall be made by the industry for the control of Air Pollution before commissioning the plant. The emitted pollutants will meet the emission and other standards as laid/will be prescribed by the Board from time to time.
5. The applicant will obtain consent under section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 and under section 21/22 of the Air (Prevention & Control of Pollution) Act, 1981 as amended to-date-even before starting trial production
6. The above Consent to Establish is further subject to the conditions that the unit complies with all the laws/rules/decisions and competent directions of the Board/Government and its functionaries in all respects before commissioning of the operation and during its actual working strictly.
7. No in-process or post-process objectionable emission or the effluent will be allowed, if the scheme furnished by the unit turns out to be defective in any actual experience

8. The Electricity Department will give only temporary connection and permanent connection to the unit will be given after verifying the consent granted by the Board, both under Water Act and Air Act.
9. Unit will raise the stack height of DG Set/Boiler as per Board's norms.
10. Unit will maintain proper logbook of Water meter/sub meter before/after commissioning.
11. That in the case of an industry or any other process the activity is located in an area approved and that in case the activity is sited in an residential or institutional or commercial or agricultural area, the necessary permission for siting such industry and process in an residential or institutional or commercial or agricultural area or controlled area under Town and Country Planning laws CLU or Municipal laws has to be obtained from the competent Authority in law permitting this deviation and be submitted in original with the request for consent to operate.
12. That there is no discharge directly or indirectly from the unit or the process into any interstate river or Yamuna River or River Ghaggar.
13. That the industry or the unit concerned is not sited within any prohibited distances according to the Environmental Laws and Rules, Notification, Orders and Policies of Central Pollution control Board and Haryana State Pollution Control Board.
14. That of the unit is discharging its sewage or trade effluent into the public sewer meant to receive trade effluent from industries etc. then the permission of the Competent Authority owing and operating such public sewer giving permission letter to his unit shall be submitted at time of consent to operate.
15. That if at any time, there is adverse report from any adjoining neighbor or any other aggrieved party or Municipal Committee or Zila Parishad or any other public body against the unit's pollution; the Consent to Establish so granted shall be revoked.
16. That all the financial dues required under the rules and policies of the Board have been deposited in full by the unit for this Consent to Establish.
17. In case of change of name from previous Consent to Establish granted, fresh Consent to Establish fee shall be levied.
18. Industry should adopt water conservation measures to ensure minimum consumption of water in their Process. Ground water based proposals of new industries should get clearance from Central Ground Water Authority for scientific development of previous resource.
19. That the unit will take all other clearances from concerned agencies, whenever required.
20. That the unit will not change its process without the prior permission of the Board.
21. That the Consent to Establish so granted will be invalid, if the unit falls in Aravali Area or non conforming area.
22. That the unit will comply with the Hazardous Waste Management Rules and will also make the non-leachate pit for storage of Hazardous waste and will undertake not to dispose off the same except for pit in their own premises or with the authorized disposal authority.
23. That the unit will submit an undertaking that it will comply with all the specific and general conditions as imposed in the above Consent to Establish within 30 days failing which Consent to Establish will be revoked.
24. That unit will obtain EIA from MoEF, if required at any stage.
25. In case of unit does not comply with the above conditions within the stipulated period, Consent to Establish will be revoked.

26. That unit will obtain consent to operate from the board before the start of product activity.

Specific Conditions

Other Conditions :

1. Unit will take Consent to Operate before starting the occupation/ operation of the project. 2. The unit will install the project only on the premises for which unit has applied for NOC. 3. The unit will install adequate acoustic enclosures/ chambers on their D.G. sets with proper stack height as per prescribed norms to meet the prescribed standards under EP Rules, 1986. 4. Unit will comply the conditions mentioned in the letter dated 25-10-2019 of CPCB regarding mechanism for Environmental management. 5. Unit will register on Dust control & management app and will install anti smog gun and will submit the proof of the same.

गैर-वन भूमि पर वन कानून उपयुक्तता के विषय में स्पष्टीकरण पत्र।

Clarification letter regarding applicability of forest laws on non forest land.

Applicant Akanksha located at village /city Hayatpur district Gurgaon
made a proposal to use this land for Building Construction. It is made clear that:

a) As per records available above said land is not part of notified Reserved Forest, Protected Forest under Indian Forest Act, 1927 or any area closed under section 4 of Punjab Land Preservation Act, 1900.

b) It is clarified that by the Notification No. S.O.8/PA 2/1900/S. 4/2013 dated 4th January, 2013, all Revenue Estate of Gurgaon is notified u/s 4 of PLPA 1900 and S.O.81/PA.2/1900/S.3/2012 u/s 3 of PLPA 1900. The area is however not recorded as forest in the Government record but felling of any tree is strictly prohibited without the permission of Divisional Forest Officer, Gurgaon.

c) If approach is required from Protected Forest by the user agency, the clearance/ regularization under Forest Conservation Act 1980 will be required. Without prior clearance from Forest Department, the use of Forest land for approach road is strictly prohibited. M/s M/s Akina Builders & Developers Private Limited & Hayatpur In Collaboration With DLF Limited whose land is located at village/city, Hayatpur In Collaboration With DLF Limited obtain clearance as applicable under Forest Conservation Act 1980.

d) As per the records available with the Forest Department, Gurgaon the area does not fall in areas where plantations were raised by the Forest Department under Aravalli project.

e) All other statutory clearances mandated under the Environment Protection Act. 1986, as per the notification of Ministry of Environment and Forests, Government of India, dated 07-05-1992 or any other Act/ order shall be obtained as applicable by the project proponents from the concerned authorities.

f) The project proponent will not violate any Judicial Order/ direction issued by the Hon'ble Supreme Court/ High Courts.

g) It is clarified that the Hon'ble Supreme Court has issued various judgments dated 07.05.2002, 29.10.2002, 16.12.2002, 18.03.2004, 14.05.2008 etc. pertaining to Aravalli region in Haryana, which should be complied with.

h) It shall be the responsibility of user agency/ applicant to get necessary clearances/ permissions under various Acts and Rules applicable if any, from the respective authorities/ Department.

i) This certificate is not applicable in case of Environment Department notification dated 10.03.2016 for Screening Plant, and notification dated 11.05.2016 for Stone Crusher. Investor/Applicant has to take clearance from Environment Department in case of Screening Plant and Stone Crusher.

It is subject to the following conditions:

1. Clarification Is Hereby Issued Subject To The Conditions
Mentioned Above.

ANNEXURE XI

Environment Policy

Feb 2025

DLF recognizes the importance of protecting the environment through adopting appropriate mitigating and control measures, during Construction, Operations and Maintenance of its projects/ assets.

We will ensure adequate controls and processes to safeguard the environment in accordance with the relevant regulations/ standards/ guidelines.

We are committed to:

- Compliance of environmental legislation and regulation stipulated by statutory bodies from time to time.
- Maintain transparency in matters of Environmental compliance.
- Creating the required awareness on Environmental requirements and statutory norms with the aim of increasing environmental stewardship amongst employees, public, and other stake holders.
- Conducting our activities in an environmentally responsible manner that fosters sustainability.
- Minimizing the negative impact of our operations on the environment by improving the efficiency of natural resources usage, waste management processes and encouraging the integration of renewable energy resources wherever possible.
- Deploying/ developing the right resources and competence to understand and implement environmental measures as per best management practices applicable to the industry.
- Working for continual improvement of our environmental performance through focused objectives, performance targets and certifications as required.
- Reviewing this policy at regular intervals.

पर्यावरण नीति

फरवरी 2025

डीएलएफ अपनी परियोजनाओं/ संपत्तियों के निर्माण, संचालन और रखरखाव के दौरान उपयुक्त न्यूनीकरण और नियंत्रण उपायों को अपनाकर पर्यावरण की रक्षा करने के महत्व को पहचानता है। हम संबंधित विनियमों/ मानकों/ दिशानिर्देशों के अनुसार पर्यावरण की सुरक्षा के लिए पर्याप्त नियंत्रण और प्रक्रियाएं सुनिश्चित करेंगे।

हम इसके लिए प्रतिबद्ध हैं:

- समय-समय पर वैधानिक निकायों द्वारा निर्धारित पर्यावरणीय कानून और विनियमन का अनुपालन।
- पर्यावरण अनुपालन के मामलों में पारदर्शिता बनाए रखना।
- कर्मचारियों, जनता और अन्य हितधारकों के बीच पर्यावरणीय नेतृत्व बढ़ाने के उद्देश्य से पर्यावरणीय आवश्यकताओं और वैधानिक मानदंडों पर आवश्यक जागरूकता करना।
- हमारी गतिविधियों को पर्यावरणीय रूप से जिम्मेदार तरीके से संचालित करना जो निरंतरता को बढ़ावा देता है।
- प्राकृतिक संसाधनों, अपशिष्ट प्रबंधन प्रक्रियाओं के उपयोग की दक्षता में सुधार करके और जहां भी संभव हो नवीकरणीय ऊर्जा संसाधनों के एकीकरण को प्रोत्साहित करके पर्यावरण पर हमारे संचालन के नकारात्मक प्रभाव को कम करना।
- उद्योग पर लागू सर्वोत्तम प्रबंधन प्रथाओं के अनुसार पर्यावरणीय उपायों को समझने और कार्यान्वित करने के लिए सही संसाधनों और क्षमता को तैनात/ विकसित करना।
- केंद्रित उद्देश्यों, प्रदर्शन लक्ष्यों और आवश्यकतानुसार प्रमाणपत्रों के माध्यम से हमारे पर्यावरणीय प्रदर्शन के निरंतर सुधार के लिए काम करना।
- नियमित अंतराल पर इस नीति की समीक्षा करना।

चीफ टेक्निकल ऑफिसर, डीएलएफ लिमिटेड

Health, Safety and Security Policy

Jan 2025

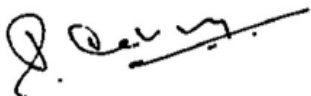

DLF holds the safety and security of its people as central to the way it does business. We are committed to creating and maintaining safe, healthy and well protected workplaces, that conform to and where possible exceed all relevant codes and standards.

We believe that all injuries/ accidents are preventable and we have to be vigilant at all times.

Our Commitment

We will:

- Conduct our business with a goal of zero harm.
- Ensure all management decisions reflect our Health, Safety, Fire Safety and Security intentions.
- Provide safe, healthy and secure work conditions for our employees and contractors.
- Maintain an H&S and Security Management system designed to continuously improve our performance and actively minimize the risks in our business.
- Provide direction, support, training and supervision to ensure that all employees and contractors understand required behaviors and the consequences of non-compliance.
- Protect all company assets, personnel, business information systems and reputation from harm.
- Adopt a risk-based approach to the design, construction and operations of facilities wherein compliance to applicable legal, regulatory, industry and corporate requirements is ensured.
- Provide adequate resources towards integrating Health, Safety, Fire Safety and Security requirements in all of the organization's activities and minimizing the impact of these on the neighbouring environment.
- Encourage sustainable communication, consultation and participation of employees, including employees of our service providers, on matters of their health, well-being and safety.
- Review and revise this Policy at regular intervals.

P. Ramakrishnan

Chief Technical Officer, DLF LTD

'We take pride in everyone returning home safely everyday'

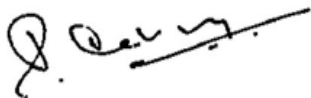

डीएलएफ अपने लोगों की सुरक्षा और संरक्षा को अपने कारोबार के तरीके के केंद्र में रखता है। हम सुरक्षित, स्वस्थ और अच्छी तरह से संरक्षित कार्यस्थलों को बनाने और बनाए रखने के लिए प्रतिबद्ध हैं, जो सभी प्रासंगिक कोड और मानकों के अनुरूप हैं और जहां संभव हो, उससे अधिक हैं।

हमारा मानना है कि सभी चोटों/ दुर्घटनाओं को रोका जा सकता है और हमें इसके स्वरूप हर समय सतर्क रहना होगा।

हमारी प्रतिबद्धता

हम करेंगे:

- शून्य नुकसान के लक्ष्य के साथ हमारे व्यवसाय का संचालन।
- सुनिश्चित करें कि सभी प्रबंधन निर्णय हमारे स्वास्थ्य, सुरक्षा, अग्नि सुरक्षा और सुरक्षा इरादों को प्रतिबिंबित करते हैं।
- हमारे कर्मचारियों और ठेकेदारों के लिए सुरक्षित, स्वास्थ्य और सुरक्षित कार्य स्थितियां प्रदान बनाना।
- हमारे प्रदर्शन में लगातार सुधार करने और सक्रिय रूप से हमारे व्यवसाय में जोखिमों को कम करने के लिए डिज़ाइन की गई एक स्वास्थ्य, सुरक्षा और संरक्षा प्रबंधन प्रणाली बनाए रखें।
- दिशा, समर्थन, प्रशिक्षण और पर्यवेक्षण प्रदान करना कि सभी कर्मचारी और ठेकेदार आवश्यक व्यवहार और गैर-अनुपालन के परिणामों को समझते हैं।
- सभी कंपनी की संपत्ति, कर्मियों, व्यावसायिक सूचना प्रणालियों और प्रतिष्ठा को नुकसान से बचाना।
- सुविधाओं के डिज़ाइन, निर्माण और संचालन के लिए जोखिम-आधारित दृष्टिकोण अपनाना जिसमें लागू कानूनी, नियामक, उद्योग और कॉर्पोरेट आवश्यकताओं का अनुपालन सुनिश्चित किया जाता है।
- संगठन की सभी गतिविधियों में स्वास्थ्य, सुरक्षा, अग्नि सुरक्षा और सुरक्षा आवश्यकताओं को एकीकृत करने और पड़ोसी पर्यावरण पर इनके प्रभाव को कम करने की दिशा में पर्याप्त संसाधन प्रदान करना।
- हमारे कर्मचारियों के साथ सेवा प्रदाताओं के कर्मचारियों के स्वास्थ्य, कल्याण और सुरक्षा के मामलों पर स्थायी संचार, परामर्श और भागीदारी को प्रोत्साहित करना।
- नियमित अंतराल पर इस नीति की समीक्षा और संशोधन करना।

पी. रामकृष्णन

चीफ टेक्निकल ऑफिसर, डीएलएफ लिमिटेड

“हम हर रोज सभी के सुरक्षित रूप से घर लौटने पर गर्व महसूस करते हैं”
