- ### NOTES
- This development have been conceived, designed and drafted on basis of the following parameters:
- All toilets will be mechanically ventilated. Conditioned air from the office floor will be sucked in to the toilets and vented out through a vent shaft
 - All spaces (parking basement, service basement ect.) will be artificially lit. Any service basement ect.) will be artificially lit. Any natural light which is available in the office spaces is only incidental and not essential to the functioning of the buildings.
 - 100% standby generating capacity will be provided for the entire electrical requirement of the total scheme. This therefore includes standby generation for all common services, fire services, lifts etc. and also the entire electrical load for ventilation & air-conditioning lights and all office equipment.
 - This building will be sprinkled as per NBC norms.
 - Partitions/modifications for interior space /layout shall be as per client request/requirements of usable area of floor plate
